

## Inseego Announces Deployment with Extra Space Storage

December 19, 2017

*Inseego's Skyus™ DS 4G LTE IoT solution targeted for more than 1500 storage locations across 38 states*

SAN DIEGO--(BUSINESS WIRE)--Dec. 19, 2017-- [Inseego Corp.](#) (Nasdaq: INSG) – the global leader in software-as-a-service (SaaS) business intelligence solutions, Internet of Things (IoT) and mobile technology today announced deployment with [Extra Space Storage](#) (NYSE: EXR) to provide failover connectivity at all their storage facilities.

To learn more about the Skyus DS, visit: <https://www.inseego.com/product/skyus-ds/>

Extra Space Storage is one of the largest operators of self-storage facilities in the U.S. with over 1,500 stores, comprising approximately 1,030,000 units and 114 million square feet of rentable space as of September 30, 2017. A large portion of Extra Space Storage's reservations are completed online. Thus keeping their extensive IT network and services up and running at all times is critical. Any network downtime could impact end customers and could result in lost revenue. Partnering with Inseego and Cisco Meraki, Extra Space Storage has implemented dual wan to ensure all their assets function without interruption.

"Customers are looking for reliable, secure and economical solutions for failover connectivity," said Ashish Sharma, EVP of IoT and Mobile Solutions at Inseego. "We are happy to work with Extra Storage Space to help connect geographically dispersed assets with a field proven solution. Our Skyus DS 4G LTE IoT solution provides real time monitoring of critical network infrastructure and we continue to innovate with new features to enhance our customers' deployment use cases."

Widely deployed in the market for remote management and failover applications, Inseego's Skyus DS 4G LTE IoT solution is customized for Meraki MX firewalls allowing the Skyus portfolio to provide an enterprise-grade platform for rapid deployment with plug-and-play integration capabilities.

"We are pleased with the ease-of-use, performance and reliability of the Skyus DS 4G LTE solution from Inseego," said Bron McCall, SVP and CTO at Extra Space Storage. "Providing our end customers the best possible experience is a top priority. As a result, we continue to invest in our network infrastructure to ensure customer facing operations are always running smoothly."
