

Inseego Unveils Comprehensive IoT and Mobile Solutions Portfolio at Mobile World Congress 2018

February 26, 2018

Cutting edge 4G/5G powered Voice over LTE, Mobile Broadband, Fixed Wireless and Industrial IoT solutions

BARCELONA, Spain--(BUSINESS WIRE)--Feb. 26, 2018-- [Inseego Corp.](#) (Nasdaq: INSG), an industry leader in solutions for intelligent mobile enterprises, today announced that it will bring its latest IoT and Mobile portfolio for service providers and enterprise customers to Mobile World Congress 2018, held in Barcelona, Spain, February 26 to March 1.

"We are excited about the market opportunities driven by new innovative developments in 5G mobile, VoLTE and IoT," said Ashish Sharma, EVP of IoT and Mobile Solutions at Inseego. "Inseego has a rich history of driving major innovations in the mobile industry with multiple generations of 3GPP technologies. We're eager to showcase the strength and depth of our offerings that are focused on enabling a high-quality experience for our customers."

As an early driver of 5G technology, Inseego is developing a device portfolio that will enable a variety of use cases and business models for wireless service providers. The solution portfolio leverages new LTE-Advanced and LTE-Advanced Pro enabled solutions in the areas of wireless home phone with Voice over LTE (VoLTE), mobile broadband hotspots, residential 4G/5G routers, and industrial IoT modems and gateways. The latest LTE-Advanced and LTE-Advanced Pro solutions have recently been selected by several service provider and enterprise customers in Europe, Asia Pacific and North America.

Inseego's IoT and Mobile solutions are gaining customer momentum with several new categories of enterprise segments in Europe and Australia, a number of service providers in Canada, APAC and Australia, and new service providers in the US. The driving force behind the new deployments is to enable a diverse set of applications for end customers powered by Inseego solutions. A few examples of new customers are TELUS and Videotron in Canada, General Communications Inc. (GCI) in Alaska, and a large Japanese service provider delivering services in the APAC region.

"Mobile is a very competitive and constantly evolving industry in which you need to offer innovative and effective solutions to remain relevant," said Bertrand Hébert, Vice President, Marketing of Videotron. "Inseego delivers solutions that are forward looking, to not only answer our customers' needs today, but as well as for the foreseeable future."
