

Fleet Customers Enhance Security with Integrated Camera IoT Cloud Telematics from Inseego

July 24, 2018

Real-time video surveillance is integrated with Inseego's anti-highjacking RF jamming detection technology to further enhance security of fleets and cargo

Track global fleet customers are set to increase visibility and driver safety with integrated solution

SAN DIEGO--(BUSINESS WIRE)--Jul. 24, 2018-- [Inseego Corp.](#) (Nasdaq: INSG), an industry leader in solutions for intelligent mobile enterprises, has been entrusted with dramatically enhancing the management of the largest long-range transport fleets on the planet. With a camera system built into its already powerful IoT-to-Cloud telematics management software, Inseego's deeply integrated Ctrack platform is prepared to take on any challenge in this era of increased e-commerce and fast shipping demands.

Time Link Cargo and More Global Fleet Customers: Advanced Fleet Tracking, Analytics, Routing, Security and More.

- Ctrack's powerful cloud telematics solution – part of the Ctrack Enterprise Asset Management family of products – allows the integration of real-time video telematics, GPS trailer and asset tracking data, route optimization, driver behavior analytics, anti-highjacking RF jamming detection technology and additional features that optimize and provide additional security to enterprise fleets.
- With customer Time Link Cargo as a prime example, fleet operations in Inseego's worldwide markets are set to increase efficiency, accuracy and safety across their operations with the use of world-leading device-to-cloud telematics solutions.

"Ctrack effectively elevates our fleet management capabilities to new levels," said Kamal Mitoo, CEO of Time Link Cargo. "The platform delivers real time visibility across a number of key indicators, allowing us to stay on top of fleet risk elements and productivity, while contributing to driver safety and security of our customers' assets. The resultant impact on our entire fleet operations is immense."

"Inseego's intelligent cloud platform supports multiple use cases and integrates many advanced technologies for managing a full fleet - benefiting our clients throughout their logistical and supply chain operations," said Chris Lytle, EVP Enterprise SaaS at Inseego. "We have the unique perspective of a pioneer in mobile device technology, IoT and SaaS – creating and expanding systems that are trusted by organizations with mission-critical demands for high value assets. By consistently delivering new approaches to capturing business intelligence for our customers, we continue to accelerate our growth worldwide in the fleet management vertical."
