

Inseego's Ctrack Selected by Michelin Group Commercial Fleet Leader to Improve Driver Behavior and Safety

October 17, 2018

UK commercial transport leader, Tructyre, boosts fleet productivity with renowned Ctrack Fleet Management and Driver Behavior technology; Company's fleet customers include DHL, Shell and more

SAN DIEGO--(BUSINESS WIRE)--Oct. 17, 2018-- [Inseego Corp.](#) (Nasdaq: INSG), a pioneer in 5G and intelligent IoT device-to-cloud solutions, has been selected by Tructyre Fleet Management, a Michelin Group company (PARIS: ML), to deploy its industry-leading Ctrack Fleet Management technology. As part of Tructyre's ongoing initiative to improve fleet operations, the Ctrack device-to-cloud platform has been implemented to achieve greater visibility both centrally and across the company's network of 24 depots in their UK operation.

"We were looking for an end-to-end telematics solution that would enable us to engage and educate our staff to drive safer and more efficiently," explained Scott Matthews, Tructyre Logistic & Fleet Executive and Chartered Member of the Institute of Logistics and Transportation. "What was important was to choose a telematics partner that could deliver a solution that was right for us today, while having the capabilities to adapt to our changing needs as we expand. The team at Ctrack has ensured that implementation has been straightforward, without needless disruption, with ongoing support provided by the account management and analytics teams to help us maximize our return on investment."

"We're proud to have been selected by one of the United Kingdom's most prominent commercial transport companies that services top global brands, dramatically enhancing efficiency and safety with the power of Ctrack's intelligent device-to-cloud technology," said Inseego SVP Enterprise SaaS, John Weldon. "Tructyre joins an impressive list of fleet service customers throughout the United Kingdom and Europe that entrust their safety programs and asset management to Inseego. We look forward to further enhancing fleet operations for companies across the world with our unrivaled combination of IoT hardware and software."

Transforming Fleets with Ctrack: Globe-leading IoT Device-to-Cloud Intelligence

- Inseego's Ctrack Fleet Management solution, which replaces a competing vehicle tracking service, was selected due to the platform's ease of use, proven return-on-investment and functionality.
- By using the Ctrack system, Tructyre can further safeguard their workforce by improving driver behavior, increase productivity while targeting savings such as fuel consumption, asset utilization and optimization, wear and tear and insurance premiums.
