Mobile service providers and 5G ecosystem partners around the world have teamed up with Inseego to bring 5G services to life through a lineup of high-performance 5G NR solutions powered by Inseego's patented MiFi^{IQ} technology. MiFi technology, recently branded MiFi^{IQ}, is the latest technology innovation from Inseego's R&D Labs.

MiFi^{IQ} capabilities continue to evolve with new innovations in antenna design techniques, quick response algorithms for a wide array of 5G use cases, and the latest hacker-proof security features. These enhancements are integrated into the company's new portfolio of advanced 4G LTE and 5G NR solutions targeting mobile, fixed wireless, and industrial IoT (IIoT) applications.

"Inseego is combining forces with ecosystem partners to accelerate the adoption of 5G NR worldwide," said Dan Mondor, Chairman and CEO of
