

Inseego Reports First Quarter 2019 Financial Results

May 8, 2019

Revenue and earnings within guidance

Rapid expansion of global 5G customer opportunities

SAN DIEGO--(BUSINESS WIRE)--May 8, 2019-- Inseego Corp. (Nasdaq: INSG) (the "Company"), a pioneer in 5G and intelligent IoT device-to-cloud solutions, today reported the following results for the first quarter ended March 31, 2019. The Company reports first-quarter revenues of \$48.6 million, GAAP operating loss of \$2.5 million, GAAP net loss of \$7.5 million, or net loss of \$0.10 per share, adjusted EBITDA of \$2.1 million and non-GAAP net loss of \$0.03 per share. Cash and cash equivalents at the end of the period, including restricted cash, was \$31.9 million.

"Our strategy of investing early in 5G is paying off, as global service providers are showing great interest in our market-leading mobile and fixed wireless portfolio, which is reflected in a rapid increase in our opportunity pipeline," said Dan Mondor, Chairman and CEO of Inseego. "Our 5G NR products are showing excellent performance with multiple customers and we are delighted to help them make the promise of 5G a reality in 2019."

Corporate Highlights

- Revenue of \$48.6 million, at the high end of guidance
- Accelerating R&D and sales and marketing investments to support growth in global 5G opportunities

IoT & Mobile Solutions

- Q1 2019 revenue of \$32.8 million, 13.5% year-over-year growth
- 5G opportunity pipeline growth in South America, Asia, and Europe; signed MOU with a leading European mobile operator
- Launching MiFi LTE-Advanced gigabit hotspot with Sprint in the second quarter and Bell Canada later this year
- Launched a new line of Skyus LTE-Advanced ruggedized edge routers for industrial IoT applications

Enterprise SaaS Solutions

- Q1 2019 revenue of \$15.8 million
- Momentum in the Aviation vertical with a new global European carrier
- Solid year over year growth in the Fleet business with Europe revenues up 8% and South Africa SMB revenues up 7%

"Inseego is making significant investments in R&D and sales and marketing to capitalize on global high-growth market opportunities across our portfolio, especially in 5G," said Steve Smith, EVP and CFO of Inseego. "In the first quarter we saw compression in gross margins due to higher than expected costs at the time of new product introductions and we have put in place an action plan to improve product margins."

Second Quarter Outlook

The following statements are forward-looking and actual results may differ materially. Please see the section titled "Cautionary Note Regarding Forward-Looking Statements" at the end of this news release. A more detailed description of risks related to our business is included in the reports filed by the Company with the Securities and Exchange Commission (the "SEC"). Our guidance for the second quarter of 2019 reflects current business indicators and expectations as of the date of this news release, including current exchange rates for foreign currencies.

Inseego Consolidated	Second Quarter 2019 Outlook
Revenue	\$50.0 million - \$56.0 million
Adjusted EBITDA	\$2.8 million - \$4.5 million

IoT & Mobile Solutions

Revenue \$35.0 million - \$40.0 million

Enterprise SaaS Solutions

Revenue \$15.0 million - \$16.0 million

Conference Call Information

Inseego will host a conference call and live webcast for analysts and investors today at 5:00 p.m. ET. A Q&A session with analysts will be held live directly after the prepared remarks. To access the conference call:

- In the United States, call 1-844-881-0135
- International parties can access the call at 1-412-317-6727

An audio replay of the conference call will be available beginning one hour after the call, through May 22, 2019. To hear the replay, parties in the United States may call 1-877-344-7529 and enter access code 10129584 followed by the # key. International parties may call 1-412-317-0088. In addition, the Inseego Corp. press release will be accessible from the Company's website before the conference call begins.

About Inseego Corp.

Inseego Corp. (Nasdaq: INSG) is an industry pioneer in 5G and intelligent IoT device-to-cloud solutions that enables high performance mobile applications for large enterprise verticals, service providers and small-medium businesses around the globe. Our product portfolio consists of Enterprise SaaS solutions and IoT & Mobile solutions, which together form the backbone of compelling, intelligent, reliable and secure IoT services with deep business intelligence. Inseego powers mission critical applications with a "zero unscheduled downtime" mandate, such as asset tracking, fleet management, industrial IoT, SD WAN failover management and mobile broadband services. Our solutions are powered by our key innovations in purpose-built SaaS cloud platforms, IoT and mobile technologies including the newly emerging 5G technology. www.inseego.com #Making5GReal

Cautionary Note Regarding Forward-Looking Statements

Some of the information presented in this news release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In this context, forward-looking statements often address expected future business and financial performance and often contain words such as "may," "estimate," "anticipate," "believe," "expect," "intend," "plan," "project," "will" and similar words and phrases indicating future results. The information presented in this news release related to our outlook for the second quarter ending June 30, 2019 and our future business outlook, the future demand for our products, as well as other statements that are not purely statements of historical fact, are forward-looking in nature. These forward-looking statements are made on the basis of management's current expectations, assumptions, estimates and projections and are subject to significant risks and uncertainties that could cause actual results to differ materially from those anticipated in such forward-looking statements. We therefore cannot guarantee future results, performance or achievements. Actual results could differ materially from our expectations.

Factors that could cause actual results to differ materially from the Company's expectations include: (1) the future demand for wireless broadband access to data and asset management software and services; (2) the growth of wireless wide-area networking and asset management software and services; (3) customer and end-user acceptance of the Company's current product and service offerings and market demand for the Company's anticipated new product and service offerings; (4) increased competition and pricing pressure from participants in the markets in which the Company is engaged; (5) dependence on third-party manufacturers and key component suppliers worldwide; (6) the impact that new or adjusted tariffs may have on the cost of components or our products, and our ability to sell products internationally; (7) the impact of fluctuations of foreign currency exchange rates; (8) the impact of geopolitical instability on our ability to source components and manufacture our products; (9) unexpected liabilities or expenses; (10) the Company's ability to introduce new products and services in a timely manner, including the ability to develop and launch 5G products at the speed and functionality required by our customers; (11) litigation, regulatory and IP developments related to our products or components of our products; (12) dependence on a small number of customers for a significant portion of the Company's revenues; and (13) the Company's plans and expectations relating to acquisitions, divestitures, strategic relationships, international expansion, software and hardware developments, personnel matters and cost containment initiatives, including restructuring activities and the timing of their implementation.

These factors, as well as other factors set forth as risk factors or otherwise described in the reports filed by the Company with the SEC (available at www.sec.gov), could cause actual results to differ materially from those expressed in the Company's forward-looking statements. The Company assumes no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future, except as otherwise required pursuant to applicable law and our on-going reporting obligations under the Securities Exchange Act of 1934, as amended.

Non-GAAP Financial Measures

Inseego Corp. has provided financial information in this news release that has not been prepared in accordance with GAAP. Non-GAAP operating expenses, adjusted EBITDA, net loss and net loss per share exclude share-based compensation expense, amortization of intangible assets purchased through acquisitions, amortization of discount and issuance costs related to the Company's convertible senior notes and term loan and restructuring charges, net of recoveries. Adjusted EBITDA also excludes interest, taxes, depreciation and amortization (unrelated to acquisitions, the convertible senior notes and the term loans) and foreign currency transaction gains and losses.

Non-GAAP operating expenses, adjusted EBITDA, net loss and net loss per share are supplemental measures of our performance that are not required by, or presented in accordance with, GAAP. These non-GAAP financial measures have limitations as an analytical tool and are not intended to be used in isolation or as a substitute for operating expenses, net loss, net loss per share or any other performance measure determined in accordance with GAAP. We present non-GAAP operating expenses, adjusted EBITDA, net loss and net loss per share because we consider each to be an important supplemental measure of our performance.

Management uses these non-GAAP financial measures to make operational decisions, evaluate the Company's performance, prepare forecasts and determine compensation. Further, management believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing the Company's performance when planning, forecasting and analyzing future periods. Share-based compensation expenses are expected to vary depending on the number of new incentive award grants issued to both current and new employees, the number of such grants forfeited by former employees, and changes in the Company's stock price, stock market volatility, expected option term and risk-free interest rates, all of which are difficult to estimate. In calculating non-GAAP operating expenses, adjusted EBITDA, net loss and net loss per share, management excludes certain non-cash and one-time items in order to facilitate comparability of the Company's operating performance on a period-to-period basis because such expenses are not, in management's view, related to the Company's ongoing operating performance. Management uses this view of the Company's operating performance for purposes of comparison with its business plan and individual operating budgets and in the allocation of resources.

The Company further believes that these non-GAAP financial measures are useful to investors in providing greater transparency to the information used by management in its operational decision-making. The Company believes that the use of non-GAAP operating expenses, adjusted EBITDA, net loss and net loss per share also facilitates a comparison of our underlying operating performance with that of other companies in our industry, which use similar non-GAAP financial measures to supplement their GAAP results.

In the future, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items in the presentation of our non-GAAP financial measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring. Investors and potential investors are cautioned that there are material limitations associated with the use of non-GAAP financial measures as an analytical tool. The limitations of relying on non-GAAP financial measures include, but are not limited to, the fact that other companies, including other companies in our industry, may calculate non-GAAP financial measures differently than we do, limiting their usefulness as a comparative tool.

Investors and potential investors are encouraged to review the reconciliation of our non-GAAP financial measures contained within this news release with our GAAP financial results.
