

Vodafone Qatar Premieres the Region's First 5G MiFi® Mobile Hotspot from Inseego

November 25, 2019

SAN DIEGO & DOHA, Qatar--(BUSINESS WIRE)--Nov. 25, 2019-- Vodafone Qatar, together with Inseego Corp., a pioneer in 5G and IoT device-to-cloud solutions, today introduced the 5G MiFi M1100, the first commercially available 5G mobile hotspot in Qatar and the region. With this new 5G MiFi hotspot, Vodafone Qatar customers can enjoy the power of 5G on their existing phones and other devices even if they are not 5G-enabled. Priced at QR 1,999 the [5G MiFi M1100](#) is available now at all Vodafone Qatar stores.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20191125005283/en/>

The MiFi M1100 delivers lightning-fast video streaming, lag-free videoconferencing, cloud gaming, VR experiences and more on Vodafone's world-class 5G GigaNet network. Coupled with Vodafone Qatar's Unlimited 5G Plans, this hotspot enables users to take full advantage of 5G, with powerful connectivity for all their mobile devices, be it at home, in the city or camping in the desert.

The 5G MiFi M1100 can connect up to 16 devices simultaneously (15 by Wi-Fi plus one by USB or ethernet), from laptops, tablets and smartphones to TVs and security cameras. Built on Inseego's trusted MiFi® iQ platform, it optimizes signal performance with proprietary 5G antenna technology and protects connections with enterprise-grade security. Its power optimization features, QuickCharge™ technology and high-capacity battery also ensure around-the-clock uptime.

"We're pleased to be one of the world's first operators to bring the power of 5G MiFi mobile hotspots to our customers," said Vodafone Qatar Chief Executive Officer Sheikh Hamad Abdulla Al-Thani. "This is an important step forward in delivering new 5G services that enhance our lives through new digital experiences, smart cities and other exciting areas."

"We're proud to deliver our 5G MiFi hotspots to Vodafone Qatar, enabling their customers to experience incredibly fast, seamless connections wherever they go," said Inseego Chairman and CEO Dan Mondor. "We're continuing to support the industry's first wave of 5G NR network launches around the globe with our leading-edge 5G solutions. This commercial deployment, which takes our 5G products into another new geography, is an important milestone for Inseego."

Vodafone Qatar is playing a leading role in the deployment and commercial availability of 5G. The Company's extensive 5G network covers key locations across the country, offers the only 5G plans and recently announced the launch of 5G roaming services, starting with the United Kingdom.

About Inseego Corp.

Inseego Corp. (Nasdaq: INSG) is an industry pioneer in 5G and intelligent IoT device-to-cloud solutions that enable high-performance mobile applications for large enterprise verticals, service providers and small-medium businesses around the globe. Our product portfolio consists of Enterprise SaaS solutions and IoT & Mobile solutions, which together form the backbone of compelling, reliable and secure IoT services with deep business intelligence. Inseego powers mission-critical applications with a "zero unscheduled downtime" mandate, such as asset tracking, fleet management, industrial IoT, SD WAN failover management and mobile broadband services. Our solutions are powered by our key innovations in purpose-built SaaS cloud platforms, IoT and mobile technologies including the newly emerging 5G technology. www.inseego.com #Making5GReal
