Inseego Introduces Driver App to Improve Driver Behavior and Save Additional Costs

SAN DIEGO & LEEDS, England--(BUSINESS WIRE)-- [Inseego Corp.](#) (Nasdaq: INSG) - a leading global provider of software-as-a-service (SaaS) and solutions for the Internet of Things (IoT) has launched a new support web app through its Ctrack fleet management solution. This will enable fleet operators to better engage with their drivers and ensure they are following vehicle safety procedures. Driver Mobi provides a suite of tools that have been designed to help businesses instill a safety-first fleet culture by targeting risk reduction and encouraging responsible driving, thereby saving additional costs.

Driver Mobi's vehicle checklist is a useful tool to help drivers perform their daily safety inspections simply and effectively, while providing fleet managers and administrators with online visibility for all completed and missed checks. Companies can gain peace of mind that the required pre-work checks are taking place and ensure any non-compliance is quickly addressed. A report can also be scheduled and run at a chosen time interval to provide an overview of all checks and identify any vehicles that need attention.

The Driver Score area provides an effective way of promoting road safety and encouraging responsible driving. By calculating an individual score that can be viewed alongside a company average score, employees can be incentivized to improve their driving performance. A breakdown of events is also available across harsh acceleration, harsh braking, harsh cornering, speeding and excess idling with a peer comparison for each, so drivers can identify individual areas of improvement.

Using the historical trips tool, drivers can now allocate individual journeys over the past 30 days as business or personal mileage, with the option to add any additional comments where necessary. Drivers can run their own individual personal mileage reports, which can be instantly viewed on screen or emailed. This means accurate records can be kept electronically to simplify administrative processes and help achieve legislative compliance.

About Inseego Corp.
