Novatel Wireless Reports Second Quarter 2014 Financial Results

SAN DIEGO--(BUSINESS WIRE)-- Novatel Wireless, Inc. (NASDAQ: NVTL), a leading provider of Internet of Things (IoT) wireless solutions, announced financial results for the second quarter ended June 30, 2014.

Revenue in the second quarter was \$37.3 million, down 23% compared to \$48.3 million in the first quarter of 2014. GAAP net loss in the quarter was \$17.4 million, or \$(0.51) per share, compared to a loss of \$9.0 million, or \$(0.26) per share, in the first quarter of 2014. The net loss for the second quarter of 2014 included approximately \$5.3 million in restructuring charges, including approximately \$3.7 million related to the termination of our former CEO. On a non-GAAP basis, net loss for the quarter was \$11.2 million, or \$(0.33) per share, compared to a loss of \$7.1 million, or \$(0.21) per share, in the first quarter of 2014. A reconciliation of GAAP to non-GAAP measures is included in the accompanying tables.

"The second quarter represented a sea-change for the Company with the Board of Directors making a decision to change senior leadership. The quarter's results were adversely impacted by significant additional restructuring charges, which we now believe are largely behind us, and increased inventory reserves. We are now in the process of charting a new direction for the Company which is centered around integrating our current two segments - Mobil Computing and M2M - into one synergistic business strategy which will revolve around a suite of products and services for IoT," said Alex Mashinsky, interim CEO of Novatel Wireless. "We are committed to growing our revenues, our margins and all of our operating income metrics over time and expect that our new strategies will help us achieve those goals."

Third Quarter 2014 Business Outlook

Based on the significant changes in our senior executive management team, the ongoing restructuring effort and the development of the Company's new strategies, including the further integration of our Mifi and M2M product lines, the Company is suspending the providing of forward quarterly guidance until it has better visibility of projected results.

Conference Call Information

Novatel Wireless will host a conference call and live webcast for analysts and investors today at 5:00 p.m. ET. To access the conference call:

- In the United States, call 1-877-317-6789
- International parties can access the call at 1-412-317-6789

Novatel Wireless will offer a live webcast of the conference call, which will be accessible from the "Investors" section of the Company's website at www.NVTL.com. A telephonic replay of the conference call will also be available one hour after the call and will be available for 90 days. To hear the replay, parties in the United States may call 1-877-344-7529 and enter conference code 10050362#. International parties may call 1-412-317-0088 and enter the same code.

ABOUT NOVATEL WIRELESS

Novatel Wireless, Inc. is a leader in the design and development of intelligent wireless solutions based on 2G, 3G and 4G technologies. The Company delivers specialized wireless solutions to carriers, distributors, retailers, OEMs and vertical markets worldwide. Product lines include MiFi Intelligent Mobile Hotspots, Ovation™ USB modems, Expedite embedded modules, Mobil Tracking Solutions, Asset Tracking Solutions, and Enabler smart M2M modules. These innovative products provide anywhere, anytime communications solutions for consumers and enterprises. Headquartered in San Diego, California, Novatel Wireless is listed on NASDAQ: NVTL. For more information please visit www.nvtl.com. (NVTL)

Cautionary Note Regarding Forward-Looking Statements

Some of the information presented in this release constitutes forward-looking statements based on management's current expectations, assumptions, estimates and projections. In this context, forward-looking statements often address expected future business and financial performance and often contain words such as "may," "estimate," "anticipate," "believe," "expect," "intend," "plan," "project," "will" and similar words and phrases indicating future results. The information presented in this release related to our financial results for the second quarter ended June 30, 2014, as well as statements regarding new product launches, are forward-looking. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those anticipated in such forward-looking statements. The Company therefore cannot guarantee

future results, performance or achievements. Actual results could differ materially from the Company's expectations.

Factors that could cause actual results to differ materially from Novatel Wireless' expectations are set forth as risk factors in the Company's SEC reports and filings and include (1) the future demand for wireless broadband access to data, (2) the growth of wireless wide-area networking, (3) changes in commercially adopted wireless transmission standards and technologies including 3G and 4G standards, (4) continued customer and end user acceptance of the Company's current products and market demand for the Company's anticipated new product offerings, (5) increased competition and pricing pressure from current or future wireless market participants, (6) dependence on third party manufacturers in Asia and key component suppliers worldwide, (7) unexpected liabilities or expenses, (8) the Company's ability to introduce new products in a timely manner, (9) litigation, regulatory and IP developments related to our products or component parts of our products, (10) dependence on a small number of customers, (11) the effect of changes in accounting standards and in aspects of our critical accounting policies and (12) the Company's plans and expectations relating to strategic relationships, international expansion, software and hardware developments, personnel matters and cost containment initiatives.

These factors, as well as other factors described in the reports filed by the Company with the SEC (available at www.sec.gov), could cause actual results to differ materially. Novatel Wireless assumes no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future, except as otherwise required pursuant to applicable law and our on-going reporting obligations under the Securities Exchange Act of 1934, as amended.

Non-GAAP Financial Measures

Novatel Wireless has provided in this release financial information that has not been prepared in accordance with GAAP. Non-GAAP operating expenses, net loss and loss per share exclude stock-based compensation expenses, acquisition-related intangible-asset amortization and restructuring charges.

Adjusted EBITDA and Non-GAAP net loss, loss per share, operating expenses, and gross margin are supplemental measures of our performance that are not required by, or presented in accordance with, GAAP. These non-GAAP financial measures are not intended to be used in isolation and, moreover, they should not be considered as a substitute for net income, diluted earnings per share, operating expenses, gross margin or any other performance measure determined in accordance with GAAP. We present adjusted EBITDA and non-GAAP net loss, loss per share, operating expenses, and gross margin because we consider each to be an important supplemental measure of our performance.

Management uses these non-GAAP financial measures to make operational decisions, evaluate the Company's performance, prepare forecasts and determine compensation. Further, management believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing the Company's performance when planning, forecasting and analyzing future periods. The stock-based compensation expenses are expected to vary depending on the number of new grants issued to both current and new employees, and changes in the Company's stock price, stock market volatility, expected option life and risk-free interest rates, all of which are difficult to estimate. In calculating non-GAAP operating expenses, net loss and loss per share, management excludes stock-based compensation expenses, acquisition-related intangible-asset amortization and restructuring charges to facilitate comparability of the Company's operating performance on a period-to-period basis because such expenses are not, in management's review, related to the Company's ongoing operating performance. Management uses this view of its operating performance for purposes of comparison with its business plan and individual operating budgets and allocation of resources.

We further believe that these non-GAAP financial measures are useful to investors in providing greater transparency to the information used by management in its operational decision making. We believe that the use of non-GAAP operating expenses, net loss and loss per share also facilitates a comparison of Novatel Wireless' underlying operating performance with that of other companies in our industry, which use similar non-GAAP financial measures to supplement their GAAP results.

Calculating non-GAAP operating expenses, net loss and loss per share have limitations as an analytical tool, and you should not consider these measures in isolation or as substitutes for GAAP operating expenses, net loss and loss per share. In the future, we expect to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items in the presentation of our non-GAAP financial measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring. Investors and potential investors are cautioned that there are material limitations associated with the use of non-GAAP financial measures as an analytical tool. Limitations in relying on non-GAAP operating expenses, net loss and loss per share include, but are not limited to, the fact that other companies, including other companies in our industry, may calculate non-GAAP operating expenses, net loss and loss per share differently than we do, limiting their usefulness as a comparative tool.

In addition, the adjustments to our GAAP operating expenses, net loss and loss per share reflect the exclusion of stock-based compensation expenses that are recurring and will be reflected in the Company's financial results for the foreseeable future. The Company compensates for these limitations by providing specific information regarding the GAAP amount excluded from the non-GAAP financial measures. The Company further compensates for the limitations of our use of non-GAAP financial

measures by presenting comparable GAAP measures more prominently. The Company evaluates the non-GAAP financial measures together with the most directly comparable GAAP financial measures.

Investors and potential investors are encouraged to review the reconciliation of non-GAAP financial measures contained within this press release with our GAAP operating expenses, net loss, loss per share and gross margin. For more information, see the consolidated statements of operations and the "Reconciliation of GAAP Net Loss to Non-GAAP Net Loss" contained in this press release.
