Introducing the Verizon Wireless Home Phone T2000 by Novatel Wireless

T2000 enhances wireless home phone service with LTE support

SAN DIEGO--(BUSINESS WIRE)-- Novatel Wireless - an Inseego Corp. company (Nasdaq:INSG) and leading provider of mobile broadband and connected solutions for the Internet of Things (IoT) - announces the launch of the new Wireless Home Phone - T2000 at Verizon Wireless. Available now exclusively from Verizon Wireless (Nasdaq:VZ) online at www.verizonwireless.com and at Verizon Wireless retail stores for \$29.99 with a two-year contract, it is the first LTE Wireless Home Phone solution for Verizon Wireless. Service to the line, including unlimited domestic calls, costs \$20 a month - or just \$10 for current Verizon Wireless customers and comes with popular features such as voicemail and essential E911 service. With an informational display and support for fax, the T2000 offers features that make it the perfect upgrade for current Home Phone customers and anyone looking to go wireless for their home phone service.

"Continuing our long standing relationship with Verizon Wireless and leveraging our prior experience on the LTE Internet and Home Phone product, the new T2000 brings some of the most advanced, VoLTE based, landline voice and data features of its class to Wireless Home Phone customers on the nation's largest and most reliable network," says Stephen Sek, SVP and CTO of Novatel Wireless. "With the support of legacy circuit switched services such as fax, the T2000 enables customers to seamlessly migrate from traditional wireline phone services to the advanced wireless 4G network with superior user experience and ease."

Households are increasingly cutting the cord and opting for wireless home phone service. Not only are customers saving money, but the flexibility of being able to take your phone service with you wherever you go is an added convenience. Mobile job sites, kiosks, long vacationers can all pick up their T2000 and set up shop at a new location without having to call customer care.

The T2000 introduces LTE to the Home Phone category at Verizon Wireless. Additionally, the Wireless Home Phone product features dual RJ11 ports for Phone/Fax, and an RJ31 port for home security systems (post-launch feature). With an 1,800 mAh battery, the T2000 is an excellent option that can get you through a power outage and provide at least 3 hours of usage time and at least 33 hours of standby time.

"Novatel Wireless is thrilled to launch the Wireless Home Phone - T2000 with Verizon Wireless," says Steve Linke, Novatel Wireless Director of Sales. "The T2000 demonstrates Novatel Wireless' commitment to developing industry leading technology that will leverage Verizon's network advancements and provide a superior call quality to the growing market of Wireless Home Phone customers."

The Wireless Home Phone - T2000 features:

- | 1.77" display
- | 4G LTE
- | 1,800 mAh battery
- | 2 RJ11 ports for Voice call or Fax support
- | RJ31 port for Home security system support (post-launch)

T2000 supports advanced calling features such as:

- | Caller ID
- | Call forwarding, waiting, holding
- | Three-way calling
- | Voicemail
- | TTY-TTD
