

## Inseego's Ctrack Aviation Asset Management Wins CompassIntel IoT Innovator Award

October 3, 2018

*Engineered together with aviation partners, purpose-built solution grabs fourth industry recognition combined with multiple accolades this year*

LAS VEGAS--(BUSINESS WIRE)--Oct. 3, 2018-- Inseego Corp. (NASDAQ: INSG), a pioneer in 5G and intelligent IoT device-to-cloud solutions, has been recognized by Compass Intelligence as a CompassIntel IoT Innovator for its industry-leading Ctrack Aviation Asset Management solution, engineered together with aviation partners to solve unique airline operations worldwide. The annual program recognizes top companies innovating in specific verticals across the Internet of Things (IoT).

The Ctrack Aviation and Asset Management and Tracking Solution has been awarded and honored for innovation and leadership in the category [IoT Innovator: Aviation and Airport](#). Inseego was awarded the coveted leadership spot for demonstrating innovative product technology with a suite of solutions that support industry innovation and advancements in processes and operations specific to aviation or airport operations. The Ctrack Aviation Asset Management and Tracking solution is purpose-built to optimize utilization of assets, improve fleet maintenance, ground operations, fuel management, safety, security and the overall passenger experience.

"We are honored to be recognized by Compass Intelligence as the leader in IoT innovation that's optimizing airline operations around the globe," says John Weldon, SVP Enterprise SaaS at Inseego. "Each success story demonstrates how quickly the Ctrack Aviation Asset Management and Tracking solution transforms complex and unique aviation needs into solutions. By automating manual processes and enhancing the value of information, airlines and airport operations can realize substantial cost reductions and improvements across the board."

Compass Intelligence IoT Innovator award winners were announced October 3, 2018 and were selected for distinct categories specific to industry, emerging technologies, and core use cases by more than 30 industry-leading independent press, editors, journalists, thought leaders and analysts.
