

Inseego Appoints Adam Gould as SVP Product Management

November 19, 2019

Wireless industry veteran brings broad product, engineering and strategy experience

SAN DIEGO--(BUSINESS WIRE)--Nov. 19, 2019-- Inseego Corp. (Nasdaq: INSG), a 5G and intelligent IoT device-to-cloud solutions pioneer, today announced the appointment of Adam Gould as Senior Vice President, Product Management, IoT & Mobile solutions. Gould will lead execution of the 5G and IIoT product line strategies that drive growth, profitability and differentiation in the market.

"We're thrilled to have such a visionary product leader on our team," said Ashish Sharma, Inseego EVP, IoT & Mobile Solutions. "He brings extensive management experience at both startups and multinationals, combined with strategic insights and global relationships."

Most recently, as CEO of QuantalRF, Mr. Gould steered the company's strategy for its patented low-power, high-sensitivity RF technology. As VP, Market and Technology Disruption at ARM, he spearheaded the company's IoT strategy. As CEO of Sensinode (later acquired by ARM), he provided a wireless sensor network solution for use in building automation, asset management, advanced metering and other applications.

He previously held senior roles at NextWave Broadband and Motorola, and served as Chief Technology Officer for the CDMA Business Unit at Nokia for 13 years.

Mr. Gould holds a BS in electrical engineering from MIT and an MS in electrical and computer engineering from Drexel University. He has held board positions at numerous early stage technology startups and also holds over a dozen patents.

"Inseego is in an enviable market position, leading the industry with innovative 5G solutions," said Gould. "I am energized to work with this incredibly talented team to redefine the delivery of wireless products and solutions, both for our operator partners and for the growing IoT needs of enterprises," said Gould.
