

## Inseego's New LTE Solution for Businesses Eliminates Need for Landlines

February 13, 2020

— Innovative, plug-and-play Business Phone Connect (BPC100) for wireless voice and data —

SAN DIEGO--(BUSINESS WIRE)--Feb. 13, 2020-- Inseego Corp. (Nasdaq: INSG), a pioneer in 5G and intelligent IoT device-to-cloud solutions, today launched a new 4G LTE fixed wireless access product for business phone connectivity. Ideal for small/medium businesses (SMB) and enterprise users, the new BPC100 by Inseego provides complete connectivity for voice and data (including POS transactions and alarm monitoring), eliminating the need for a separate landline connection and bill. The BPC100 is now available through Verizon Enterprise Sales, 1-800-922-0204.

"Today's LTE networks offer a great alternative to traditional hard-wired telephone service, and the BPC100 makes it easier than ever for businesses to cut the cord on their landline service," said Inseego EVP of IoT & Mobile Solutions, Ashish Sharma. "We built this product for users who need reliable, high-quality voice and data connections no matter where their offices, stores or kiosks may be. We're proud to partner with Verizon to bring this best-in-class LTE customer premises equipment (CPE) product to their business customers."

Designed and developed in the USA, the Verizon BPC100 Business Phone Connect by Inseego provides complete connectivity for both voice and LTE Cat 1 data (up to 10 Mbps) in one compact, plug-and-play device.

Features include:

- HD Voice over LTE (VoLTE) technology to deliver clear, natural sounding voice

- An RJ11 port to connect your telephone or fax
- An ethernet (RJ45) port with Cat 1 data speed for light data applications such as POS
- An RJ31 port for security/alarm systems
- Battery backup for business continuity in case of power outage
- Two external antennas included for improved performance in areas of low signal strength
