

Inseego MiFi® 8000 Arrives in Canada

April 6, 2021

Inseego's flagship 4G LTE mobile hotspot now available at one of Canada's leading mobile operators

Industry-leading mobile broadband solution delivers ultra-fast gigabit-plus peak download speeds and enterprise-grade security features

SAN DIEGO--(BUSINESS WIRE)--Apr. 6, 2021-- [Inseego Corp.](https://www.inseego.com) (Nasdaq: INSG), a leader in 5G and intelligent IoT device-to-cloud solutions, today announced its MiFi® 8000 4G LTE mobile hotspot is now available at one of Canada's largest mobile network operators.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20210406005393/en/>

“For a number of years, Inseego’s technology has enabled this tier one operator to provide secure and industry-leading broadband connectivity to their business and consumer customers,” said Ashish Sharma, president of IoT & Mobile Solutions at Inseego. “This latest win in Canada illustrates our commitment to expand our product portfolio footprint with new and existing carrier customers, and further demonstrates Inseego’s role as a trusted partner to deliver solutions that bring out the best of the network.”

Winner of dozens of awards and accolades, including *PC Mag's* Editor's Choice, the MiFi 8000 mobile hotspot is the industry's gold standard in the 4G LTE mobile broadband category. The MiFi 8000 is designed and developed by Inseego in the USA, and widely trusted by enterprise customers, government agencies, municipalities and financial institutions.

This feature-rich solution is also ideal for small and medium businesses, remote employees and students who need to stay connected.

Key features and benefits of the MiFi 8000 mobile hotspot include:

- **Blazing-fast LTE speed:** With extensive LTE band support, the MiFi 8000 offers industry-leading performance. It allows up to 15 Wi-Fi devices to connect in 2.4GHz or 5GHz bands simultaneously, which avoids network congestion and maximizes performance.
- **The ultimate in enterprise-grade security:** Inseego’s technology platform goes above and beyond industry standards for security with IT admin controls, on-board VPN, guest Wi-Fi network, anti-hacking cybersecurity features and advanced enterprise-grade encryption protocols.
- **24-hour battery life with hassle-free charging:** In one single charge, the MiFi 8000 stays up and running all day long, and its universal charging feature can give a battery boost to other devices such as smartphones or tablets. Built-in Qualcomm® Quick Charge™ technology delivers lightning-fast charging up to four times faster than conventional charging. Stand-by mode also allows devices to conserve battery life for days without plugging in.
- **File sharing through MiFi Share:** MiFi Share provides a new way to share files with connected devices on the local, secure, private Wi-Fi network when you plug a USB memory stick that is plugged into the MiFi 8000’s USB-C port.
