

## Inseego Integrates C-Band into Verizon-certified 5G FWA Portfolio

August 4, 2022

*C-Band spectrum availability will accelerate widespread adoption of 5G services*

SAN DIEGO--(BUSINESS WIRE)--Aug. 4, 2022-- Inseego Corp., (NASDAQ: INSG) a leader in 5G edge cloud solutions, today announced Verizon has certified Inseego's 5G fixed wireless access (FWA) portfolio to include C-Band spectrum connectivity across their network. Verizon customers can now harness the power of 5G mid-band spectrum to get the speed, reliability and flexibility they need for consumer, business and industrial environments with Inseego's industry leading portfolio of indoor and outdoor 5G FWA solutions.

"As broader availability of 5G becomes a reality, businesses are ready to adopt 5G for primary broadband use. The newly added capacity at mid-band will allow customers a highly differentiated FWA experience," says Chuck Becher, SVP and GM of Inseego Carrier Solutions. "Inseego's 5G solutions provide industry leading performance with plug-and-play capability. We are proud to partner with Verizon to bring our extensive 5G portfolio to their C-Band spectrum holdings and look forward to helping customers deploy new broadband services."

Inseego's 5G FWA solutions are purpose-built for any environment and enable customers to quickly deploy 5G. For additional simplicity, IT organizations can seamlessly manage their deployment with Inseego Connect remote device management or with existing out-of-band management (OOBM) software. Additional features of the portfolio include:

- C-Band update available via over the air (FOTA), requiring zero touch from the carrier or end-user
- Supports LTE, 5G Ultra Wideband and Wi-Fi 6
- Indoor and outdoor solutions with integrated high gain antennas and multiple power options
- Cloud management with Inseego Connect™
- New out-of-band management (OOBM) feature
- SIM switching with dual SIM capability
