

Inseego MiFi® X PRO 5G UW hotspot now available at Verizon

August 12, 2022

10th generation MiFi® mobile hotspot offers expanded 5G and enterprise-specific features

SAN DIEGO--(BUSINESS WIRE)--Aug. 12, 2022-- [Inseego Corp.](#) (Nasdaq: INSG), a leader in 5G and intelligent IoT device-to-cloud solutions, today introduced the new MiFi® X PRO 5G UW mobile hotspot, delivering the full range of 5G connectivity including C-Band, along with Wi-Fi 6 for performance that packs more power and flexibility into one of the market's most trusted mobile hotspots for business — all while retaining its all-day battery life¹. The new MiFi® X PRO 5G UW is Verizon's third generation 5G mobile hotspot by Inseego and now available to order in stores and [online here](#).

“Inseego is committed to transforming the way businesses stay connected,” said Chuck Becher, SVP and GM of Carrier Solutions at Inseego. “The invention of MiFi® well over a decade ago revolutionized mobile broadband by empowering people with Wi-Fi on-the-go. MiFi® X PRO marks a new era for the MiFi® brand — one in which the performance, security, and flexibility once again sets the pace for innovation. We’re thrilled to reveal its first availability in North America with our partner Verizon.”

The MiFi® X PRO 5G mobile hotspot: the trusted get-it done companion

- **Strong, reliable performance** – Don’t miss a beat. Experience low latency and very high speeds with connectivity to Verizon’s 5G Ultra Wideband² and C-Band with fewer glitchy video calls and fewer glitchy worksite connections.
- **Security and peace of mind** – Connect with confidence. VPN pass-through, hacker prevention, password protection, and WPA3 prevents brute force attacks and increases protection no matter where business (or off-hours fun) happens.
- **Long-lasting power** – No unplanned downtime. The rechargeable 5050 mAh battery and Qualcomm® Quick Charge™ Technology, built-in power management features, and battery share to charge other devices, will keep things running all day (or night).
- **Easy to setup and manage** - The Inseego Mobile™ app for Android and iOS enables

users to quickly manage device settings from their phone or tablet.

- **Superior technology and flexible connectivity options** – The new MiFi X PRO 5G UW features proprietary antenna design and performance algorithms combined with Snapdragon® X65/X62 5G Modem-RF System³ to bring out the best in the network. And the RJ45 Ethernet port provides a direct internet connection for extra flexibility.

“We are pleased to expand our collaboration with Inseego, and this milestone highlights our shared commitment to driving innovation to help ensure consumers have access to fast, reliable, and flexible expanded 5G wireless experiences wherever life takes them,” said Gautam Sheoran, Vice President, Product Management, Qualcomm Technologies, Inc. “The Snapdragon X65/X62 5G Modem-RF Systems’ expansive feature sets, band support and spectrum aggregation capabilities are designed to offer the ultimate 5G deployment flexibility to operators globally.”
