

Inseego MiFi® X PRO 5G Now Available at Telstra in Australia

August 17, 2022

10th generation MiFi® brand mobile hotspot offers expanded 5G and enterprise-specific features

SAN DIEGO & SYDNEY--(BUSINESS WIRE)--Aug. 17, 2022-- [Inseego Corp.](https://www.inseego.com) (Nasdaq: INSG), a leader in 5G and intelligent IoT device-to-cloud solutions, today announced the launch of the next generation [MiFi® 5G mobile hotspot with Telstra](https://www.inseego.com/products/mobile/mifi-x-pro), bringing the power of Australia's largest 5G network to its customers on-the-go. The new MiFi X PRO 5G mobile hotspot delivers reliable high speed 5G broadband experience combined with Wi-Fi 6—all while retaining its all-day battery life. The new MiFi X PRO 5G mobile hotspot is now available for purchase at Telstra branded stores, selected partner stores and through www.telstra.com.au.

“The invention of MiFi well over a decade ago revolutionized mobile broadband globally by empowering people to access Wi-Fi on-the-go, and the new Inseego MiFi X PRO 5G once again sets the pace for innovation with superior performance, reliability and security,” said Peter Adamovic, Country Manager for Inseego. “Our 5G solutions are preferred for a reason—we are obsessed with developing technology that brings out the best in the network so that customers can truly experience the power of 5G, and we are thrilled to be partnering with Telstra to make the MiFi X PRO 5G available to businesses and consumers in Australia.”

The MiFi® X PRO 5G mobile hotspot: the trusted get-it-done companion

- **Strong performance with advanced 5G features combined with Wi-Fi 6**
– Experience low latency and high speeds with connectivity to Telstra's 5G network. Fewer glitchy video

(C)2022. Inseego Corp. MiFi X PRO 5G mobile hotspot now at Telstra

calls, fewer glitchy worksite connections.

- **Connect with confidence** – Open VPN, VPN pass-through, a secure administration portal, and WPA3 all help to prevent your MiFi X PRO 5G from brute force attacks and increases protection.
- **Long-lasting power** –The rechargeable 5050 mAh battery and Qualcomm® Quick Charge™ Technology, combined with enhanced power management features like Battery Preservation Mode, enable your MiFi® X PRO 5G to act as both a portable or fixed internet solution and with its battery share feature, you can keep other devices charged and running all day.¹
- **Easy to setup and manage** - The Inseego Mobile™ app for Android and iOS enables users to quickly manage device settings from their phone or tablet.
- **Superior technology and flexible connectivity options** – The new MiFi X PRO 5G features proprietary antenna design and performance algorithms combined with Snapdragon® X62 5G Modem-RF System to bring out the best in the network. An RJ45 Ethernet port provides a direct internet connection for extra flexibility.

“We are pleased to expand our collaboration with Inseego, and this milestone highlights our shared commitment to driving innovation to help ensure consumers have access to fast, reliable, and flexible expanded 5G wireless experiences wherever life takes them,” said Gautam Sheoran, Vice President, Product Management, Qualcomm Technologies, Inc. “The Snapdragon X62 5G Modem-RF Systems’ expansive feature sets, band support and spectrum aggregation capabilities are designed to offer the ultimate 5G deployment flexibility to operators globally.”

¹ Battery life and activity may vary depending on the number of connected devices and activity, including use of Ethernet.
