"We're proud to continue launching our 5G business solutions at T-Mobile, now with the addition of the new MiFi® X PRO to their lineup. This next generation MiFi is the most advanced mobile hotspot ever. It offers an enhanced 5G design for industry-leading performance that deliver speeds over 1 Gbps. It includes advanced security options and an ethernet port for additional flexibility," said Mark Frisch, EVP Americas Sales at Inseego. "Working with leading customers such as T-Mobile, Inseego continues to push the technological boundaries that help bring out the best in the 5G network."

The MiFi® X PRO 5G mobile hotspot: The ultimate 5G mobile internet solution that provides enhanced on-the-go broadband and 24/7 connectivity.

- **Speed: Strong performance with advanced 5G features combined with Wi-Fi 6** – Only the MiFi X PRO provides enhanced technology features that enable 5G standalone (SA) with 5G new radio carrier

aggregation (NR CA) for best-in-class performance in addition to Sounding Reference Signal (SRS) antenna switching for increased signal efficiency. This combination delivers an unrivaled experience with super-fast 5G speeds over 1 Gbps¹ and exceptionally low latency. That translates to more consistent high-quality streaming, fewer glitchy video calls, and less dropped worksite connections.

- **Security: Connect with confidence** – Enterprise-grade security features such as Open VPN, VPN pass-through and static IPs using static SIMs, enable seamless remote access to a company's network. Additionally, a secure administration portal, Wi-Fi privacy separation and WPA3 all help protect the connected devices from attacks and loss of sensitive data.
- **Flexibility: Connectivity options with 1 Gbps ethernet port, USB C, and Wi-Fi 6** – Tethered or untethered, mobile or stationary, the MiFi X PRO 5G offers convenient connectivity options. And, with a proprietary battery preservation mode, the MiFi X PRO 5G can support a wide range of use cases.
- **Reliability and Reach: Go farther, longer** – Dual-band Wi-Fi 6 with primary and guest networks, support for up to 32 Wi-Fi connections and a Wi-Fi range of up to 35 feet². The quick-rechargeable powerful battery keeps multiple devices connected all day.³
- **Usability: Easy to setup and manage** – Setup and manage the MiFi X PRO 5G from your smartphone with step-by-step instructions using the Inseego Mobile™ app. Business customers looking for advanced device management features can subscribe to Inseego Connect™ for a full suite of remote management capabilities from a single web-based dashboard.

The MiFi X PRO 5G features the Qualcomm® Snapdragon™ X62 5G Modem-RF System and Qualcomm® Quick Charge™ technology
