FOR IMMEDIATE RELEASE

NOVATEL WIRELESS ANNOUNCES FIRST QUARTER RESULTS

REVENUES ABOVE GUIDANCE AND GROSS PROFIT MORE THAN DOUBLES

OPERATING EXPENSES REDUCED AND NET LOSS CUT IN HALF

SAN DIEGO, CA. -- April 30, 2003--Novatel Wireless, Inc. (Nasdaq: NVTL), a leading provider of wireless data communications access solutions, today reported financial results for the first quarter ended March 31, 2003.

Net revenues for the first quarter were approximately \$7.5 million, ahead of previous Company guidance. This compares to \$7.3 million for the same period of the prior year. Net loss under GAAP was \$3.0 million, a significant improvement over both \$8.0 million for the first quarter of 2002 and \$7.1 million for the fourth quarter of 2002. 2003 first quarter results included a \$413,000 restructuring charge and a \$451,000 charge relating to the amortization of deferred compensation.

Net loss applicable to common shareholders was \$3.2 million, or \$0.46 per basic and diluted share, which includes a non-cash charge of \$193,000 for the accretion of dividends and beneficial conversion feature on the December 2001 Series A Preferred Stock issuance.

"The first quarter offered firm evidence that we are executing on plan, with solid revenues and a dramatic improvement to our bottom line and business model," commented Peter Leparulo, Chief Executive Officer of Novatel Wireless. "Our focus on

three clear goals started to show positive results in the first quarter as revenues picked up significantly in March, margins increased impressively and we continued to drive down costs. We are also optimistic that our \$6.7 million financing will be approved by shareholders on May 2nd, 2003 and believe this deal will provide us with the capital to accomplish our goals - including turning cash flow break even in 2003."

Recent highlights include:

- On April 17th, Novatel Wireless, Commerciant, and Sprint announced the availability of MobileScape(TM), a wireless business process application and payment processing system designed for business critical transactions in the mobile workforce technology market.
- On April 1st, Sprint, HP and Novatel Wireless leveraged their IT and wireless strengths to create a bundled offer to mobile professionals.
- On February 18th, Lucent Technologies and Novatel Wireless unveiled the jointly developed Merlin U530(TM) Wireless PC Card Modem, a high-speed data device designed to enable mobile users to access the Internet and corporate networks over third-generation (3G) Universal Mobile Telecommunications System (UMTS) networks.
- On February 18th, the Company announced first commercial shipments of the Merlin G300 (TM) Wireless PC Card Modem to Cingular Wireless.

"Importantly, we increased gross profit by over \$1.5 million on a sequential basis and more than doubled it from the prior year period," commented Melvin Flowers, Chief Financial Officer of Novatel Wireless. "Additionally, we reduced operating expenses by approximately \$1.8 million sequentially and cut them by 48.9% from the same period of 2002. Our increasing margins and focus on improving our business model resulted in a dramatic improvement in our net loss, which was reduced by over \$4 million or well over 50% when compared to both the immediately preceding fourth quarter and the same period last year."

Novatel Wireless will host a conference call for analysts and investors to discuss its quarterly results at 5:00 p.m. ET on April 30th, 2003. Open to the public, a live Web cast of the conference call will be accessible from the "Investor Relations" section of Novatel Wireless' Web site (www.novatelwireless.com). Following the live Web cast, an archived version will be available on the Novatel Wireless Web site for 5 days.

ABOUT NOVATEL WIRELESS, INC.

Novatel Wireless, Inc. is a leading provider of wireless data modems and software for use with portable personal computers and handheld computing devices. The company delivers innovative and comprehensive solutions that enable businesses and consumers to access personal, corporate and public information through email (including attachments), enterprise networks and the Internet. Novatel Wireless also offers wireless data modems and custom engineering services for hardware integration projects in a wide range of vertical applications. The Novatel Wireless product portfolio includes the Merlin(TM) Family of Wireless PC Card Modems, the Minstrel(R) Family of Wireless Handheld Modems, Sage(R) Wireless Serial Modems, Lancer 3W(TM) Family of Ruggedized Modems and Expedite(TM) Family of Wireless Embedded Modems. Headquartered in San Diego, California, Novatel Wireless is listed on The Nasdaq Stock Market (Nasdaq:NVTL).
