Robert G. Barbieri Chief Financial Officer

Inseego Reports Fourth Quarter and Full Year 2022 Financial Results

FWA business up 122% year-over-year, making up 30% of revenue

Cloud software up 6% year-over-year, making up 27% of revenue

Gross margin expands to 30% on continued ramp in FWA and cloud software revenues

SAN DIEGO—March 1, 2023—Inseego Corp. (Nasdaq: INSG) (the "Company"), a leader in 5G edge cloud solutions for the enterprise, today reported its results for the fourth quarter and year ended December 31, 2022. The Company reported fourth quarter net revenue of \$52.9 million, GAAP operating loss of \$14.2 million, GAAP net loss of \$15.3 million, GAAP net loss of \$0.14 per share, adjusted EBITDA of negative \$3.0 million, and non-GAAP net loss of \$0.11 per share. Unrestricted cash and cash equivalents at quarter end was \$7.1 million. On a full year basis, 2022 net revenue was \$245.3 million.

"The fourth quarter proved to be a transformative period for Inseego, as our FWA business experienced significant growth," said Ashish Sharma, CEO of Inseego. "This resulted in a 390 basis point increase in gross margin to 30%, despite a decline in our hotspot sales. In 2023, we are committed to achieving positive EBITDA and cash flow. This is driven by the ramp in our FWA business and the significant savings realized from our cost reduction initiatives implemented in 2022."

Business Highlights

- FWA revenue comprised 30% of revenue in Q4, up 122% year-over-year
- Cloud software comprised 27% of revenue in Q4, up 6% year-over-year
- Enterprise FWA customer base grows to well over 1,000 at year-end
 - In Q4, 90% of enterprise FWA sales included cloud software
 - In Q4, new enterprise customers deployed FWA for multi-location retail and restaurants, construction, home builders, and the SD-WAN market
- Next generation 5G mobile hotspot launch with T-Mobile in the fourth quarter

"We entered 2023 with strong momentum in our FWA business, which we expect to lead to further improvement in gross margin," said Bob Barbieri, CFO of Inseego. "In the fourth quarter, we consumed more cash than initially anticipated due to the combined impacts of lower hotspot sales, the timing of payments made to suppliers and some one-time expenses related to our cost initiatives. We have worked diligently to streamline our organization and cost structure in 2022. As a result, we expect to achieve positive cash flow in Q2 and build upon that progress over the remainder of the year."

Conference Call Information

Inseego will host a conference call and live webcast for analysts and investors today at 5:00 p.m. ET. A Q&A session with analysts will be held live directly after the prepared remarks. To access the conference call:

- Online, visit https://investor.inseego.com/events-presentations
- Phone-only participants can pre-register by navigating to https://dpregister.com/sreg/10175578/f5e0645982
- Those without internet access or unable to pre-register may dial-in by calling:
 - In the United States, call 1-844-282-4463

International parties can access the call at 1-412-317-5613

An audio replay of the conference call will be available beginning one hour after the call through March 15, 2023. To hear the replay, parties in the United States may call 1-877-344-7529 and enter access code 9478810 followed by the # key. International parties may call 1-412-317-0088. In addition, the Inseego Corp. press release will be accessible from the Company's website before the conference call begins.

About Inseego Corp.

Inseego Corp. (Nasdaq: INSG) is the industry leader in 5G Enterprise cloud WAN solutions with millions of end customers and thousands of enterprise and SMB customers on its 4G, 5G and cloud platforms. Inseego's 5G Edge Cloud combines the industry's best 5G technology, rich cloud networking features and intelligent edge applications. Inseego powers new business experiences by connecting distributed sites and workforces, securing enterprise data and improving business outcomes with intelligent operational visibility---all over a 5G network. Cautionary Note Regarding Forward-Looking Statements

Some of the information presented in this news release may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In this context, forward-looking statements often address expected future business and financial performance and often contain words such as "may," "estimate," "anticipate," "believe," "expect," "intend," "plan," "project," "will" and similar words and phrases indicating future results. The information presented in this news release related to our future business outlook, the future demand for our products, as well as other statements that are not purely statements of historical fact, are forward-looking in nature. These forward-looking statements are made on the basis of management's current expectations, assumptions, estimates and projections and are subject to significant risks and uncertainties that could cause actual results to differ materially from those anticipated in such forward-looking statements. We therefore cannot guarantee future results, performance or achievements. Actual results could differ materially from our expectations.

Factors that could cause actual results to differ materially from the Company's expectations include: (1) the future demand for wireless broadband access to data and asset management software and services; (2) the growth of wireless wide-area networking and asset management software and services; (3) customer and end-user acceptance of the Company's current product and service offerings and market demand for the Company's anticipated new product and service offerings; (4) increased competition and pricing pressure from participants in the markets in which the Company is engaged; (5) dependence on third-party manufacturers and key component suppliers worldwide; (6) the impact that new or adjusted tariffs may have on the cost of components or our products, and our ability to sell products internationally; (7) the impact of fluctuations of foreign currency exchange rates; (8) the impact of geopolitical instability and supply chain challenges on our ability to source components and manufacture our products; (9) unexpected liabilities or expenses; (10) the Company's ability to introduce new products and services in a timely manner, including the ability to develop and launch 5G products at the speed and functionality required by our customers; (11) litigation, regulatory and IP developments related to our products or components of our products; (12) dependence on a small number of customers for a significant portion of the Company's revenues and accounts receivable; (13) the Company's ability to raise additional financing when the Company requires capital for operations or to satisfy corporate obligations; (14) the Company's plans and expectations relating to acquisitions, divestitures, strategic relationships, international expansion, software and hardware developments, personnel matters, and cost containment initiatives, including restructuring activities and the timing of their implementations; (15) the global semiconductor shortage and any related price increases or supply chain disruptions, (16) the potential i

These factors, as well as other factors set forth as risk factors or otherwise described in the reports filed by the Company with the SEC (available at www.sec.gov), could cause actual results to differ materially from those expressed in the Company's forward-looking statements. The Company assumes no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future, except as otherwise required pursuant to applicable law and our on-going reporting obligations under the Securities Exchange Act of 1934, as amended.

Non-GAAP Financial Measures

Inseego Corp. has provided financial information in this news release that has not been prepared in accordance with GAAP. Adjusted EBITDA, non-GAAP net loss, non-GAAP net loss per share and non-GAAP operating costs and expenses exclude preferred stock dividends, share-based compensation expense, amortization of intangible assets purchased through acquisitions, amortization of discount and issuance costs related to our 2025 Notes and the revolving credit facility, fair value adjustments on derivative instruments, a one-time prior period adjustment related to unamortized debt discount and loss on debt extinguishment relating to our 2025 Notes, and other non-recurring legal expenses. Adjusted EBITDA also excludes interest, taxes, depreciation and amortization (unrelated to acquisitions and the 2025 Notes), impairment of capitalized software, foreign exchange gains and losses, and other.

Adjusted EBITDA, non-GAAP net loss, non-GAAP net loss per share and non-GAAP operating costs and expenses are supplemental measures of our performance that are not required by, or presented in accordance with, GAAP. These non-GAAP financial measures have limitations as an analytical tool and are not intended to be used in isolation or as a substitute for operating expenses, net loss, net loss per share or any other performance measure determined in accordance with GAAP. We present these non-GAAP financial measures because we consider each to be an important supplemental measure of our performance.

We use these non-GAAP financial measures to make operational decisions, evaluate our performance, prepare forecasts and determine compensation. Further, we believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance when planning, forecasting and analyzing future periods. Share-based compensation expenses are expected to vary depending on the number of new incentive award grants issued to both current and new employees, the number of such grants forfeited by former employees, and changes in our stock price, stock market volatility, expected option term and risk-free interest rates, all of which are difficult to estimate. In calculating non-GAAP financial measures, we exclude certain non-cash and one-time items in order to facilitate comparability of our operating performance on a period-to-period basis because such expenses are not, in our view, related to our ongoing operating performance. We use this view of our operating performance for purposes of comparison with its business plan and individual operating budgets and in the allocation of resources.

We further believe that these non-GAAP financial measures are useful to investors in providing greater transparency to the information used by management in its operational decision-making. The Company believes that the use of these non-GAAP financial measures also facilitates a comparison of our underlying operating performance with that of other companies in our industry, which use similar non-GAAP financial measures to supplement their GAAP results.

In the future, we expect to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items in the presentation of our non-GAAP financial measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring. Investors and potential investors are cautioned that there are material limitations associated with the use of non-GAAP financial measures as an analytical tool. The limitations of relying on non-GAAP financial measures include, but are not limited to, the fact that other companies, including other companies in our industry, may calculate non-GAAP financial measures differently than we do, limiting their usefulness as a comparative tool.

Investors and potential investors are encouraged to review the reconciliation of our non-GAAP financial measures contained within this news release with our GAAP financial results.
