²Cash, and cash equivalents balance includes cash and cash equivalents classified as held for sale as of March 31, 2021 (see Note 4. Business Divestiture).

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Basis of Presentation

The information contained herein has been prepared by Inseego Corp. (the "Company") in accordance with the rules of the Securities and Exchange Commission (the "SEC"). The information at March 31, 2021 and the results of the Company's operations for the three months ended March 31, 2021 and 2020 are unaudited. The condensed consolidated financial statements reflect all adjustments, consisting of only normal recurring accruals, except otherwise disclosed herein, which are, in the opinion of management, necessary for a fair statement of the results of the interim periods presented. These unaudited condensed consolidated financial statements and notes hereto should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2020. The year-end condensed consolidated balance sheet data as of December 31, 2020 was derived from the Company's audited consolidated financial statements and may not include all disclosures required by accounting principles generally accepted in the United States. Certain prior period amounts were reclassified to conform to the current period presentation. These reclassifications did not affect total revenues, costs and expenses, net loss, assets, liabilities or stockholders' deficit. Except as set forth below, the accounting policies used in preparing these unaudited condensed consolidated financial statements are the same as those described in the Company's Annual Report on Form 10-K for the year ended December 31, 2020. The results of operations for the interim periods presented are not necessarily indicative of results to be expected for any other interim period or for the year as a whole.

Risks and Uncertainties

In December 2019, COVID-19 was reported to have surfaced in Wuhan, China, resulting in shutdowns of manufacturing and commerce globally in the months that followed. Since then, the COVID-19 pandemic has spread to multiple countries worldwide, including the United States and has resulted in authorities implementing numerous measures to try to contain the disease or slow its spread, such as travel bans and restrictions, quarantines, shelter-in-place orders and shutdowns. The extent of the impact of the COVID-19 pandemic on the Company's operational and financial performance will depend on future developments, including the duration and spread of the pandemic and related actions taken by the U.S. government, state and local government officials, and international governments to prevent the spread of the disease, all of which are uncertain and cannot be predicted.

In addition, a global semiconductor supply shortage is having wide-ranging effects across the technology industry. This semiconductor shortage has not materially impacted the Company but may impact the Company's customers, and may negatively impact the supply of materials needed for our testing and production timeline. Our suppliers, contract manufacturers, and our customers are all taking actions to reduce the impact of the semiconductor shortage; however, if the shortage persists, the impact on our business could be material.

Liquidity

As of March 31, 2021, the Company had available cash and cash equivalents totaling \$5.6 million, including \$5.5 million cash and cash equivalents classified as held-for-sale, and working capital of \$46.1 million, excluding assets and liabilities classified as held-for-sale.

On March 6, 2020, the Company issued and sold 25,000 shares of Fixed-Rate Cumulative Perpetual Preferred Stock, Series E, par value \$0.001 per share (the "Series E Preferred Stock"), for an aggregate purchase price of \$25.0 million.

In the first quarter of 2020, \$59.9 million of the Company's 5.5% convertible senior notes due 2022 (the "2022 Notes" formerly referred to as the "Inseego Notes") were exchanged for common stock in private exchange transactions. Additionally, in the second quarter of 2020, the Company restructured its outstanding debt by completing a \$100.0 million registered public offering (the "Offering") of 3.25% convertible senior notes due 2025 (the "2025 Notes") and also entered in privately-negotiated Exchange Agreements, pursuant to which an aggregate of \$45.0 million in principal amount of the 2022 Notes were exchanged for an aggregate of \$32 million in cash and \$80.4 million in principal amount of the 2025 Notes (the "Private Exchange Transactions"). The Company also used a portion of the proceeds from the Offering to repay in full its previous term loan. In the third quarter of 2020, the Company redeemed the remaining \$2,000 principal amount of the 2022 Notes.

During the quarter ended September 30, 2020, certain holders of the 2025 Notes converted approximately \$13.5 million in principal amount of the 2025 Notes into 1,177,156 shares of the Company's common stock in accordance with the terms of such notes. As of March 31, 2021, the Company's outstanding debt primarily consisted of \$161.9 million in principal amount of 2025 Notes.

On January 25, 2021, the Company entered into an Equity Distribution Agreement with Canaccord Genuity LLC (the "Agent"), pursuant to which the Company may offer and sell, from time to time, through or to the Agent, up to \$40.0 million of shares of its common stock (the "ATM Offering"). In January 2021, the Company sold 1,516,073 shares of common stock, at

Notes to Condensed Consolidated Financial Statements (Unaudited)

an average price of \$20.11 per share, for net proceeds of \$29.4 million, after deducting underwriter fees and discounts of \$0.9 million, and other offering fees, pursuant to the ATM Offering.

The Company has a history of operating and net losses and overall usage of cash from operating and investing activities. The Company's management believes that its cash and cash equivalents, together with anticipated cash flows from operations, will be sufficient to meet its cash flow needs for the next twelve months from the filing date of this report. The Company's ability to attain more profitable operations and continue to generate positive cash flow is dependent upon achieving a level and mix of revenues adequate to support its evolving cost structure. If events or circumstances occur such that the Company does not meet its operating plan as expected, or if the Company becomes obligated to pay unforeseen expenditures as a result of ongoing litigation, the Company may be required to raise capital, reduce planned research and development activities, incur additional restructuring charges or reduce other operating expenses which could have an adverse impact on its ability to achieve its intended business objectives.

The Company's liquidity could be impaired if there is any interruption in its business operations, a material failure to satisfy its contractual commitments or a failure to generate revenue from new or existing products. There can be no assurance that any required or desired restructuring or financing will be available on terms favorable to the Company, or at all. Additionally, the Company is uncertain of the full extent to which the COVID-19 pandemic will impact the Company's business, operations and financial results.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly- and majority-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Segment Information

Management has determined that the Company has one reportable segment. The Chief Executive Officer, who is also the Chief Operating Decision Maker, does not manage any part of the Company separately, and the allocation of resources and assessment of performance is based solely on the Company's consolidated operations and operating results.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent liabilities. Actual results could differ materially from these estimates. Significant estimates include revenue recognition, capitalized software costs, allowance for doubtful accounts receivable, provision for excess and obsolete inventory, valuation of intangible and long-lived assets, valuation of goodwill, valuation of derivatives, accruals relating to litigation, income taxes and share-based compensation expense. The inputs related to certain estimates include consideration of the economic impact of the COVID-19 pandemic. As the impact of the COVID-19 pandemic continues to develop, these estimates could carry a higher degree of variability and volatility, and may change materially in future periods.

Sources of Revenue

The Company generates revenue from a broad range of product sales including intelligent wireless hardware products for the worldwide mobile communications, and industrial Internet of Things ("IIoT") markets, Inseego SubscribeTM, a hosted SaaS platform that helps organizations manage the selection, deployment and spend of wireless assets, and various Software as a Service ("SaaS") products. The Company's products principally include intelligent mobile hotspots, wireless routers for IoT applications, USB modems, integrated telematics and mobile tracking hardware devices, which are supported by applications software and cloud software services designed to enable customers to easily analyze data insights and configure and manage their hardware.

The Company classifies its revenues from the sale of its products and services into two distinct groupings, specifically IoT & Mobile Solutions and Enterprise SaaS Solutions. Both IoT & Mobile Solutions and Enterprise SaaS Solutions revenues include any hardware and software required for the respective solution.

IoT & Mobile Solutions. The IoT & Mobile Solutions portfolio is comprised of end-to-end edge to cloud solutions including 4G LTE mobile broadband gateways, routers, modems, hotspots, HD quality VoLTE based wireless home phones, cloud management software and an advanced portfolio of 5G products. The solutions are offered under the MiFi™ brand for consumer and enterprise markets, and under the Skyus brand for IIoT markets. Effective in the third quarter ended on September 30, 2020, IoT & Mobile Solutions also includes the Company's Device Management System ("DMS"), rebranded as

Notes to Condensed Consolidated Financial Statements (Unaudited)

Inseego SubscribeTM, that helps organizations manage the selection, deployment and spend of their customer's wireless assets, helping them save money on personnel and telecom expenses. The Company reclassified its Inseego Subscribe revenue stream from Enterprise SaaS Solutions to better reflect the Company's end user delineation. This reclassification had no impact on previously reported total net revenue, gross profit, or net loss.

Enterprise SaaS Solutions. The Enterprise SaaS Solutions portfolio consists of various subscription offerings to gain access to the Company's Ctrack telematics platforms, which provide fleet vehicle, aviation ground vehicle and asset tracking and performance information, and other telematics applications.

Reclassification

Certain reclassifications have been made to the prior period condensed consolidated statement of operations to conform to the current period presentation.

¹Amounts exclude balances classified as held for sale. See Note 4. *Business Divestiture*.

3. Fair Value Measurement of Assets and Liabilities

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). A fair value measurement reflects the assumptions market participants would use in pricing an asset or liability based on the best available information. These assumptions include the risk inherent in a particular valuation technique (such as a pricing model) and the risks inherent in the inputs to the model.

Notes to Condensed Consolidated Financial Statements (Unaudited)

The Company classifies inputs to measure fair value using a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The categorization of financial instruments within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The hierarchy is prioritized into three levels (with Level 3 being the lowest) and is defined as follows:

- Level 1: Pricing inputs are based on quoted market prices for identical assets or liabilities in active markets (e.g., NYSE or NASDAQ). Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Pricing inputs include benchmark yields, trade data, reported trades and broker dealer quotes, two-sided markets and industry and economic events, yield to maturity, Municipal Securities Rule Making Board reported trades and vendor trading platform data. Level 2 includes those financial instruments that are valued using various pricing services and broker pricing information including Electronic Communication Networks and broker feeds.
- Level 3: Pricing inputs include significant inputs that are generally less observable from objective sources, including the Company's own assumptions. The fair market value for level 3 securities may be highly sensitive to the use of unobservable inputs and subjective assumptions. Generally, changes in significant unobservable inputs may result in significantly lower or higher fair value measurements.

The Company reviews the fair value hierarchy classification on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy. There have been no transfers of assets or liabilities between fair value measurement classifications during the three months ended March 31, 2021.

The following tables summarize the Company's financial instruments measured at fair value on a recurring basis in accordance with the authoritative guidance for fair value measurements as of March 31, 2021 (in thousands):

| | | Balance as of March 31, 2021 | | Level 1 |
|-----------------------------|----------|---------------------------------|----|---------|
| Assets: | | | | _ |
| Cash equivalents | | | | |
| Money market funds | \$ | 126 | \$ | 126 |
| Total cash equivalents | \$ | 126 | \$ | 126 |
| | | | | |
| | | Balance as of March 31, 2021 | | Level 3 |
| Liabilities: | | | | |
| 2025 Notes | | | | |
| * | ተ | 2,801 | \$ | 2.001 |
| Interest make-whole payment | Þ | 2,001 | Ф | 2,801 |

The fair value of the interest make-whole payment derivative liability was determined using a Monte Carlo model with the following key assumptions:

| | March 31, 2021 | December 31, 2020 |
|----------------|-------------------|-------------------|
| Volatility | 50 % | 50 % |
| Stock price | \$10.00 per share | \$15.47 per share |
| Credit spread | 16.50 % | 19.25 % |
| Term | 4.09 years | 4.34 years |
| Dividend yield | — % | — % |
| Risk-free rate | 0.66 % | 0.30 % |

INSEEGO CORP. Notes to Condensed Consolidated Financial Statements (Unaudited)

The following table sets forth a summary of changes in the fair value of Level 3 liabilities for the three months ended March 31, 2021 (in thousands):

| | Balance as of December 31, 2020 | Additions | tions Conversions Change in fair value | | Balance as of March 31, 2021 | | |
|-----------------------------|------------------------------------|----------------|----------------------------------------|-------|---------------------------------|----|-------|
| Liabilities: | | | | | | | |
| Interest make-whole payment | 4,898 | \$ <u> </u> | \$ | (146) | \$ (1,951) | \$ | 2,801 |

Other Financial Instruments

The Company's financial assets and liabilities are carried at fair value or at amounts that, because of their short-term nature, approximate current fair value, with the exception of the 2025 Notes.

On May 12, 2020, the Company issued \$180.4 million in aggregate principal amount of 2025 Notes, and restructured its outstanding debt as described further in Note 5, *Debt*. The Company carries its 2025 Notes at amortized cost adjusted for changes in fair value of the embedded derivative. As of March 31, 2021, \$161.9 million in principal amount of the 2025 Notes remain outstanding. It is not practicable to determine the fair value of the 2025 Notes due to the lack of information available to calculate the fair value of such notes.

The Company evaluated the 2025 Notes under ASC 815 and identified an embedded derivative that required bifurcation. The embedded derivative is an interest make-whole payment that was valued at \$4.6 million on May 12, 2020.

Changes in the fair value of the interest make-whole payment are included in the Company's condensed consolidated statement of operations for the current quarter within other income, net. During the quarter ended March 31, 2021, certain holders of the 2025 Notes converted an aggregate of approximately \$5.0 million in principal amount of the 2025 Notes into shares of the Company's common stock in accordance with the terms of such notes and a portion of the embedded derivative was settled in shares of the Company's common stock resulting in \$0.1 million of the derivative liability being extinguished upon conversion. As of March 31, 2021, the embedded derivative had a fair value of \$2.8 million and a \$1.9 million gain on the change in fair value was recorded to other income, net, on the condensed consolidated statement of operations in the three months ended March 31, 2021.

During the three months ended March 31, 2021 and 2020, there were no transfers between the levels within the fair value hierarchy.

4. Business Divestiture

Sale of Ctrack South Africa Operations

On February 24, 2021, the Company entered into a Share Purchase Agreement (the "Purchase Agreement") with an affiliate of Convergence Partners ("Convergence"), an investment management firm in South Africa, to sell the Company's Ctrack business operations in Africa, Pakistan and the Middle East (together, "Ctrack South Africa"), in an all-cash transaction for 528.9 million South African Rand ("ZAR") (approximately \$35.4 million United States Dollar ("USD") based on an exchange rate on March 31, 2021 of 14.92 ZAR to 1 USD). The Purchase Agreement provides for an adjustment to the purchase price based on a normalized level of net working capital. The consummation of the sale is subject to a number of customary conditions precedent, including receipt of South African anti-trust approval. Additionally, the consummation of the sale is subject to Convergence closing an investment fund.

Effective upon the execution of the Purchase Agreement, the assets and liabilities of the Ctrack South Africa entities that are subject to the sale, meet the criteria for classification of held for sale ("HFS"), since the sale of the Ctrack South Africa operations under the Purchase Agreement is subject only to usual and customary closing conditions, and the sale is expected to

INSEEGO CORP. Notes to Condensed Consolidated Financial Statements (Unaudited)

be completed in less than one year from the date of the Purchase Agreement. The following table presents assets and liabilities of Ctrack South Africa which are classified as HFS as of March 31, 2021 (in thousands):

| | | Balance as of March 31, 2021 |
|---------------------------------------------------|----|---------------------------------|
| Assets: | | |
| Cash and cash equivalents | \$ | 5,520 |
| Accounts receivable, net | | 4,539 |

| Rental assets, net | | 2,177 |
| Intangible assets, net | | 10,945 |
| Goodwill | | 10,474 |
| Right-of-use assets, net | | 27 |
| Total assets held for sale | \$ | 41,696 |
| | | |
| Liabilities: | | |
| Accounts payable | \$ | 4,784 |
| Accrued expenses and other liabilities | | 933 |
| Deferred tax liabilities, net | | 3,568 |
| Other long-term liabilities | | 777 |
| Total liabilities related to assets held for sale | \$ | 10,062 |

5. Debt

Term Loan

On August 23, 2017, the Company and certain of its direct and indirect subsidiaries, as guarantors, entered into a credit agreement (the "Credit Agreement") with Cantor Fitzgerald Securities, as administrative agent and collateral agent, and certain funds managed by Highbridge Capital Management, LLC, as lenders (the "Lenders"). Pursuant to the Credit Agreement, the Lenders provided the Company with a term loan in the principal amount of \$48.0 million (the "Term Loan") with a maturity date of August 23, 2020.

On March 31, 2020, the Company issued 2,330 shares of Series E Preferred Stock to South Ocean Funding L.L.C. ("South Ocean"), the Lender holding all of the aggregate principal amount then outstanding under the Credit Agreement in satisfaction of all then accrued interest under the Credit Agreement.

On May 12, 2020, the Company used a portion of the proceeds from the Offering to repay in full the Term Loan and terminate the Credit Agreement. The amounts paid included \$47.5 million in outstanding principal, approximately \$0.5 million in interest accrued thereon, and a prepayment fee of \$1.4 million. The Company also used a portion of the proceeds of the Offering to repurchase the 2,330 shares of Series E Preferred Stock that had been issued to South Ocean for \$2.4 million.

The Term Loan bore interest at a rate per annum equal to the three-month LIBOR, but in no event less than 1.00%, plus 7.625%.

Notes to Condensed Consolidated Financial Statements (Unaudited)

The effective interest rate was 12.99% for the three months ended March 31, 2020. The following table sets forth total interest expense recognized related to the Term Loan (in thousands):

| | Three Months ended March 31, 2020 | | |
|-------------------------------------|-----------------------------------|--|--|
| Contractual interest expense | \$ 1,151 | | |
| Amortization of debt discount | 333 | | |
| Amortization of debt issuance costs | 40 | | |
| Total interest expense | \$ 1,524 | | |

Convertible Notes

2025 Notes

On May 12, 2020, the Company completed its registered public Offering of \$100.0 million aggregate principal amount of 2025 Notes.

On May 12, 2020, the Company also entered into separate privately-negotiated Exchange Agreements with certain holders of the 2022 Notes. Pursuant to the Exchange Agreements, these noteholders agreed to exchange the 2022 Notes that they held (representing an aggregate of \$45.0 million principal amount of 2022 Notes with an estimated fair value of approximately \$112.4 million as of the date of exchange) for an aggregate of \$32.0 million in cash and \$80.4 million principal amount of 2025 Notes in private placement transactions that closed concurrently with the registered Offering. In connection therewith, the Company recorded a loss of \$67.2 million on debt conversion and extinguishment, net in the condensed consolidated statement of operations. The 2025 Notes issued in the Private Exchange Transactions are part of the same series as the 2025 Notes issued in the registered Offering.

During the three months ended March 31, 2021, certain holders of the 2025 Notes converted an aggregate of approximately \$5.0 million in principal amount of the 2025 Notes into 428,669 shares of the Company's common stock, including 32,221 shares of common stock issued in satisfaction of the interest make-whole payment. In connection therewith, the Company recorded a loss of \$0.4 million on debt conversion, net in the condensed consolidated statement of operations.

The 2025 Notes are issued under an indenture, dated May 12, 2020 (the "Base Indenture"), between the Company and Wilmington Trust, National Association, as trustee (the "Trustee"), as supplemented by the first supplemental indenture, dated May 12, 2020 (the "Supplemental Indenture" and, together with the Base Indenture, the "Indenture"), between the Company and the Trustee.

The 2025 Notes will mature on May 1, 2025, unless earlier repurchased, redeemed or converted. The 2025 Notes are senior unsecured obligations of the Company and bear interest at an annual rate of 3.25%, payable semi-annually in arrears on May 1 and November 1 of each year, beginning on November 1, 2020.

Holders of the 2025 Notes may convert the 2025 Notes into shares of the Company's common stock (together with cash in lieu of any fractional share), at their option, at any time until the close of business on the scheduled trading day immediately before the maturity date. Upon conversion of the 2025 Notes, the Company will deliver for each \$1,000 principal amount of 2025 Notes converted a number of shares of common stock (together with cash in lieu of any fractional share), equal to the conversion rate.

The initial conversion rate for the 2025 Notes is 79.2896 shares of common stock per \$1,000 principal amount of 2025 Notes, which represents an initial conversion price of approximately \$12.61 per share, and is subject to adjustment upon the occurrence of certain events, including, but not limited to, certain stock dividends, splits and combinations, the issuance of certain rights, options or warrants to holders of the common stock, certain distributions of assets, debt securities, capital stock or other property to holders of the common stock, cash dividends on the common stock and certain Company tender or exchange offers.

If a fundamental change (as defined in the Indenture) occurs at any time prior to the maturity date, then the noteholders may require the Company to repurchase their 2025 Notes at a cash repurchase price equal to the principal amount of the 2025 Notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the fundamental change repurchase date. If

Notes to Condensed Consolidated Financial Statements (Unaudited)

a make-whole fundamental change (as defined in the Indenture) occurs, then the Company will in certain circumstances increase the conversion rate for a specified period of time.

The 2025 Notes will be redeemable, in whole or in part, at the Company's option at any time, and from time to time, on or after May 6, 2023 and on or before the scheduled trading day before the maturity date, at a cash redemption price equal to the principal amount of the 2025 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, as long as the last reported sale price per share of the common stock exceeds 130% of the conversion price on (i) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date the Company sends the related redemption notice; and (ii) the trading day immediately before the date the Company sends such notice.

The Indenture contains customary events of default. If an event of default (other than certain events of bankruptcy, insolvency or reorganization involving the Company) occurs and is continuing, the Trustee, by notice to the Company, or the holders of the 2025 Notes representing at least 25% in aggregate principal amount of the outstanding 2025 Notes, by notice to the Company and the Trustee, may declare 100% of the principal of, and all accrued and unpaid interest on, all of the then outstanding 2025 Notes to be due and payable immediately. Upon the occurrence of certain events of bankruptcy, insolvency or reorganization involving the Company, 100% of the principal of, and all accrued and unpaid interest on, all of the then outstanding 2025 Notes will automatically become immediately due and payable. Notwithstanding the foregoing, the Indenture provides that, to the extent the Company elects, the sole remedy for an event of default relating to certain failures by the Company to comply with certain reporting covenants in the Indenture will, for the first 360 days after such event of default, consist exclusively of the right to receive additional interest on the 2025 Notes.

Interest make-whole payment

The 2025 Notes also include an interest make-whole payment feature whereby if the last reported sale price of the Company's common stock for each of the five trading days immediately preceding a conversion date is greater than or equal to \$10.51, the Company will, in addition to the other consideration payable or deliverable in connection with such conversion, make an interest make-whole payment to the converting holder equal to the sum of the present values of the scheduled payments of interest that would have been made on the 2025 Notes to be converted had such notes remained outstanding from the conversion date through the earlier of (i) the date that is three years after the conversion date and (ii) the maturity date. The present values will be computed using a discount rate equal to 1%. The Company will satisfy its obligation to pay the interest make-whole payment, at its election, in cash or shares of common stock (together with cash in lieu of fractional shares). The Company has determined that this feature is an embedded derivative and has recognized the fair value of this derivative as a liability in the condensed consolidated balance sheets, with subsequent changes to fair value to be recorded at each reporting period on the condensed consolidated statement of operations in other income, net.

As of March 31, 2021, \$161.9 million in principal amount of the 2025 Notes were outstanding, \$80.4 million of which were held by related parties.

The 2025 Notes consist of the following (in thousands):

| | March 31, 2021 | | D | ecember 31, 2020 |
|----------------------------------------|-------------------|---------|----|---------------------|
| Liability component | | | | |
| Principal | \$ | 161,898 | \$ | 166,898 |
| Add: fair value of embedded derivative | | 2,801 | | 4,898 |
| Less: unamortized debt discount | | (3,382) | | (3,703) |
| Less: unamortized issuance costs | | (2,697) | | (2,946) |
| Net carrying amount | \$ | 158,620 | \$ | 165,147 |

INSEEGO CORP. Notes to Condensed Consolidated Financial Statements (Unaudited)

The effective interest rate on the liability component of the 2025 Notes was 4.06% for the three months ended March 31, 2021. The following table sets forth total interest expense recognized related to the 2025 Notes (in thousands):

| | Three Months Ended March 31, 2021 |
|-------------------------------------|--------------------------------------|
| Contractual interest expense | \$ 1,287 |
| Amortization of debt discount | 208 |
| Amortization of debt issuance costs | 166 |
| Total interest expense | \$ 1,661 |

As the offering of the 2025 Notes took place during the three months ended June 30, 2020, there was no interest expense in the comparable three month period of 2020.

2022 Notes

On January 9, 2017, in connection with the settlement of an exchange offer and consent solicitation with respect to the 5.50% convertible senior notes due 2020 (the "Novatel Wireless Notes"), the Company issued approximately \$119.8 million aggregate principal amount of 2022 Notes.

During the three months ended March 31, 2020, the Company entered into privately-negotiated exchange agreements with certain investors holding the 2022 Notes. Pursuant to those exchange agreements, the investors exchanged \$59.9 million in aggregate principal amount of outstanding 2022 Notes for 13,688,876 shares of common stock. The investors that participated in such exchange agreements agreed to waive any accrued but unpaid interest on the exchanged 2022 Notes. Included in the 13,688,876 shares of common stock issued in the exchange transactions that took place during the three months ended March 31, 2020 were 942,706 shares valued at \$7.9 million on the date of issuance at fair value, which were issued pursuant to the terms of the privately-negotiated exchange agreements and were in excess of the consideration issuable under the original conversion terms of the exchanged 2022 Notes. ASC 470, *Debt*, requires the recognition through earnings of an inducement charge equal to the fair value of the consideration delivered in excess of the consideration issuable under the original conversion terms. This resulted in a non-cash charge of \$7.9 million for the three months ended March 31, 2020, which was recorded as inducement expense in the condensed consolidated statement of operations.

Pursuant to the Private Exchange Transactions described above, on May 12, 2020, the holders of an aggregate of \$45.0 million principal amount of 2022 Notes exchanged their 2022 Notes for a combination of 2025 Notes and cash. As a result of the Private Exchange Transactions, \$2,000 in principal amount of the 2022 Notes were outstanding as of June 30, 2020. On July 22, 2020, pursuant to a redemption notice issued on May 15, 2020, the Company redeemed the remaining \$2,000 principal amount of the 2022 Notes.

The effective interest rate on the liability component of the 2022 Notes was 10.76% for the three months ended March 31, 2020. The following table sets forth total interest expense recognized related to the 2022 Notes (in thousands):

| | hs Ended March l, 2020 |
|-------------------------------------|---------------------------|
| Contractual interest expense | \$ 618 |
| Amortization of debt discount | 1,252 |
| Amortization of debt issuance costs | 72 |
| Total interest expense | \$ 1,942 |

Notes to Condensed Consolidated Financial Statements (Unaudited)

6. Share-based Compensation

The Company included the following amounts for share-based compensation awards in the unaudited condensed consolidated statements of operations (in thousands):

| | | Three Months Ended March 31, | | | |
|----------------------------|----------|---------------------------------|----|-------|--|
| | <u> </u> | 2021 | | 2020 | |
| Cost of revenues | \$ | 1,578 | \$ | 228 | |
| Research and development | | 3,228 | | 292 | |
| Sales and marketing | | 1,988 | | 463 | |
| General and administrative | | 2,304 | | 570 | |
| $Total^1$ | \$ | 9,098 | \$ | 1,553 | |

¹During the quarter ended March 31, 2021, the Board of Directors of the Company approved and the Company granted restricted stock units to eligible employees under the 2018 Omnibus Incentive Compensation Plan, previously named the Amended and Restated 2009 Omnibus Incentive Compensation Plan (the "2018 Plan") that were immediately vested, as fiscal 2020 annual bonus payments. The total charges recorded during the quarter were \$7.0 million.

Stock Options

The following table summarizes the Company's stock option activity:

| Outstanding — December 31, 2020 | 8,479,979 |
|---------------------------------|-----------|
| Granted | <u> </u> |
| Exercised | (693,435) |
| Canceled | (159,545) |
| Outstanding — March 31, 2021 | 7,626,999 |
| Exercisable — March 31, 2021 | 4,259,416 |

At March 31, 2021, total unrecognized compensation expense related to stock options was \$10.8 million, which is expected to be recognized over a weighted-average period of 2.51 years.

Restricted Stock Units

The following table summarizes the Company's restricted stock unit ("RSU") activity:

| Non-vested — December 31, 2020 | 417,105 |
|--------------------------------|-----------|
| Granted | 729,252 |
| Vested | (737,741) |
| Forfeited | (8,750) |
| Non-vested — March 31, 2021 | 399,866 |

At March 31, 2021, total unrecognized compensation expense related to RSUs was \$2.1 million, which is expected to be recognized over a weighted-average period of 2.23 years.

7. Earnings Per Share

Basic earnings per share ("EPS") excludes dilution and is computed by dividing net loss attributable to Inseego Corp. by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock using the treasury stock method. Potentially dilutive securities (consisting primarily of the convertible notes calculated using the if-converted method and warrants, stock options and RSUs calculated using the treasury stock method) are excluded from the diluted EPS computation in loss periods and when the applicable exercise price is greater than the market price on the period end date as their effect would be anti-dilutive.

Notes to Condensed Consolidated Financial Statements (Unaudited)

For the three months ended March 31, 2021, the computation of diluted EPS excluded 24,867,651 shares related to the convertible notes, stock options and RSUs as their effect would have been anti-dilutive. For the three months ended March 31, 2020, the computation of diluted EPS excluded 22,028,548 shares primarily related to the convertible notes, warrants, stock options and RSUs as their effect would have been anti-dilutive.

8. Private Placements and Public Offering

Common Stock

On August 6, 2018, the Company completed a private placement of 12,062,000 shares of common stock, par value \$0.001 per share, and warrants to purchase an additional 4,221,700 shares of common stock (the "2018 Warrants"), subject to adjustment for stock splits, reverse stock splits, stock dividends and similar transactions, to certain accredited investors. On March 28, 2019, the 2018 Warrants were exercised at an exercise price of \$2.52 per share, for aggregate cash proceeds to the Company of approximately \$10.6 million. In connection with the exercise of the 2018 Warrants, on March 28, 2019, the Company issued additional warrants to purchase 2,500,000 shares of common stock (the "2019 Warrants") to the accredited investors. Each 2019 Warrant has an initial exercise price of \$7.00 per share, subject to adjustment for stock splits, reverse stock splits, stock dividends and similar transactions, became exercisable on September 28, 2019, and will expire on June 30, 2022.

During the first quarter of 2020, the Company received \$1.9 million in net cash proceeds from the exercise of 338,454 of the Company's common stock purchase warrants issued in 2015.

The Company assessed the terms of the warrants under ASC 815. Pursuant to this guidance, the Company has determined that the warrants do not require liability accounting and has classified the warrants as equity.

On January 25, 2021, the Company entered into an Equity Distribution Agreement with the Agent, pursuant to which the Company may offer and sell, from time to time, through or to the Agent, up to \$40.0 million of shares of its common stock. In January 2021, the Company sold 1,516,073 shares of common stock, at an average price of \$20.11 per share, for net proceeds of \$29.4 million, after deducting underwriter fees and discounts, and other offering fees, pursuant to the ATM Offering.

Preferred Stock

On March 6, 2020, the Company issued and sold an additional 25,000 shares of Series E Preferred Stock for an aggregate purchase price of \$25.0 million.

On March 31, 2020, the Company issued 2,330 shares of Series E Preferred Stock to South Ocean, in satisfaction of certain deferred interest obligations pursuant to the terms and conditions of the Credit Agreement.

On May 12, 2020, the Company used a portion of the proceeds from the Offering to repurchase the 2,330 shares of Series E Preferred Stock, which had been issued to satisfy accrued interest under the Credit Agreement, for \$2.4 million.

9. Geographic Information and Concentrations of Risk

Geographic Information

The following table details the Company's net revenues by geographic region based on shipping destination (in thousands):

| | Three Months Ended March 31, | | | | |
|--------------------------|---------------------------------|--------|----|--------|--|
| | | 2021 | | 2020 | |
| United States and Canada | \$ | 42,736 | \$ | 42,350 | |
| South Africa | | 7,108 | | 8,238 | |
| Other | | 7,753 | | 6,252 | |
| Total | \$ | 57,597 | \$ | 56,840 | |

Concentrations of Risk

For the three months ended March 31, 2021, two customers accounted for 60.8% of net revenues. For the three months ended March 31, 2020, one customer accounted for 53.4% of net revenues.

Notes to Condensed Consolidated Financial Statements (Unaudited)

As of March 31, 2021, two customers accounted for 26.0% and 25.2% of accounts receivable, net, respectively. As of December 31, 2020, two customers accounted for 33.3% and 17.2% of accounts receivable, net, respectively.

10. Commitments and Contingencies

Legal

The Company is, from time to time, party to various legal proceedings arising in the ordinary course of business. For example, the Company is currently named as a defendant or co-defendant in several patent infringement lawsuits in the U.S. and may be required to indirectly participate in other U.S. patent infringement actions pursuant to its contractual indemnification obligations to certain customers. Based on an evaluation of these matters and discussions with the Company's intellectual property litigation counsel, the Company currently believes that liabilities arising from or sums paid in settlement of these existing matters, if any, would not have a material adverse effect on its condensed consolidated results of operations or financial condition.

On May 11, 2017, the Company initiated a lawsuit against the former stockholders of RER in the Court of Chancery of the State of Delaware seeking recovery of damages for civil conspiracy, fraud in the inducement, unjust enrichment and breach of fiduciary duty. On January 16, 2018, the former stockholders of RER filed an answer and counterclaim in the matter seeking recovery of certain deferred and earn-out payments allegedly owed to them by the Company in connection with the Company's acquisition of RER. On July 26, 2018, the Company and the former stockholders of RER entered into a mutual general release and settlement agreement (the "Settlement Agreement") pursuant to which the parties agreed to release all claims against each other and the Company agreed to (i) pay the former stockholders of RER \$1.0 million in cash by August 17, 2018, (ii) immediately instruct its transfer agent to permit the transfer or sale of 973,333 shares of the Company's common stock that the Company had issued to the former stockholders of RER in March 2017, (iii) immediately issue 500,000 shares of the Company's common stock to the former stockholders of RER, (iv) within 12 months following the execution of the Settlement Agreement, deliver to the former stockholders of RER an additional \$1.0 million in cash, common stock, or a combination thereof, at the Company's option, (v) within 24 months following the execution of the Settlement Agreement deliver to the former stockholders of RER an additional \$1.0 million in cash, common stock, or a combination thereof, at the Company's option, and (vi) file one or more registration statements with respect to the resale of the shares of the Company's common stock issued to the former stockholders of RER pursuant to the Settlement Agreement. On July 24, 2020, the Company issued 89,928 shares of common stock to the former stockholders of RER in satisfaction of all remaining liabilities under the Settlement Agreement.

Indemnification

In the normal course of business, the Company periodically enters into agreements that require the Company to indemnify and defend its customers for, among other things, claims alleging that the Company's products infringe third-party patents or other intellectual property rights. The Company's maximum exposure under these indemnification provisions cannot be estimated but the Company does not believe that there are any matters individually or collectively that would have a material adverse effect on its condensed consolidated results of operations or financial condition.

11. Leases

Lessee

The Company is a lessee in lease agreements for office space, automobiles and certain equipment. Certain of the Company's leases contain provisions that provide for one or more options to renew at the Company's sole discretion. The majority of the Company's leases are comprised of fixed lease payments, with a small percentage of its real estate leases including lease payments subject to a rate or index, which may be variable. Certain real estate leases also include executory costs such as common area maintenance (non-lease component). As a practical expedient permitted under the new guidance, ASC 842 *Leases*, ("ASC 842"), the Company has elected to account for the lease and non-lease components as a single lease component. Lease payments, which may include lease components and non-lease components, are included in the measurement of the Company's lease liabilities to the extent that such payments are either fixed amounts or variable amounts based on a rate or index (fixed in substance) as stipulated in the lease contract.

None of the Company's lease agreements contain any material residual value guarantees or material restrictive covenants. As a result of the Company's election of the package of practical expedients permitted within ASC 842, which among other things, allows for the carryforward of historical lease classification, all of the Company's lease agreements in existence at the date of adoption that were classified as operating leases under the legacy guidance, ASC 840, have been classified as operating leases under ASC 842. Lease expense for payments related to the Company's operating leases is recognized on a straight-line

Notes to Condensed Consolidated Financial Statements (Unaudited)

basis over the related lease term, which includes options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option.

Right-of-use assets represent the Company's right to use an underlying asset during the lease term and lease liabilities represent the Company's obligation to make lease payments as specified in the lease. Right-of-use assets and lease liabilities related to the Company's operating leases are recognized at the lease commencement date based on the present value of the remaining lease payments over the lease term. When the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available surrounding the Company's borrowing rates at the lease commencement date in determining the present value of lease payments. The right-of-use asset also includes any lease payments made at or before lease commencement less any lease incentives. As of March 31, 2021, the Company had right-of-use assets of \$8.5 million and lease liabilities related to its operating leases of \$9.5 million. Right-of-use assets are included in right-of-use assets, net, on the condensed consolidated balance sheet and lease liabilities related to the Company's operating leases are included in accrued expenses and other liabilities and other long-term liabilities on the condensed consolidated balance sheet. As of March 31, 2021, the Company's weighted-average remaining lease term and weighted-average discount rate related to its operating leases were 5.6 years and 9.1%, respectively.

During the three months ended March 31, 2021 and 2020, the cash paid for amounts included in the measurement of lease liabilities related to the Company's operating leases was approximately \$0.5 million and \$0.3 million, respectively, which is included as an operating cash outflow within the consolidated statements of cash flows. During the three months ended March 31, 2021 and 2020, the operating lease costs related to the Company's operating leases were approximately \$0.5 million and \$0.3 million, respectively, which is included in operating costs and expenses in the condensed consolidated statements of operations.

The future minimum payments under operating leases were as follows as of March 31, 2021 (in thousands):

| 2021 (remainder) | \$ 1,829 |
|-------------------------------------------------------|-------------|
| 2022 | 2,212 |
| 2023 | 1,902 |
| 2024 | 1,777 |
| 2025 | 1,632 |
| Thereafter | 2,806 |
| Total minimum operating lease payments | 12,158 |
| Less: amounts representing interest | (2,685) |
| Present value of net minimum operating lease payments | 9,473 |
| Less: current portion | (1,495) |
| Long-term portion of operating lease obligations | \$ 7,978 |

The current and long term portion of operating lease obligations are classified within accrued expenses and other current liabilities and other long-term liabilities, respectively, on the condensed consolidated balance sheets.

Lessor

Monitoring device leases in which the Company serves as lessor are classified as operating leases. Accordingly, rental devices are carried at historical cost less accumulated depreciation and impairment, if any, and are included in rental assets, net, on the condensed consolidated balance sheets.

Since the lease components meet the criteria for an operating lease under ASC 842, the Company has elected the practical expedient to combine the lease and the non-lease components because the service is the predominant element in the eyes of the customer and the pattern of service delivery is the same for both elements. The Company accounts for the combined component as a single performance obligation under ASC 606, *Revenue from Contracts with Customers*.

12. Income Taxes

The Company's income tax provision of \$0.2 million and \$0.1 million for the three months ended March 31, 2021 and 2020, respectively, consisted primarily of foreign income taxes at certain of the Company's international entities and minimum state taxes for its U.S.-based entities. The Company's income tax expense is different than the expected expense based on statutory rates primarily due to full valuation allowances at all of its U.S.-based entities and many of its foreign subsidiaries.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). You should not place undue reliance on these statements. These forward-looking statements include statements that reflect the views of our senior management with respect to our current expectations, assumptions, estimates and projections about Inseego and our industry. These forward-looking statements speak only as of the date of this report. We disclaim any undertaking to publicly update or revise any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Statements that include the words "may," "could," "should," "would," "estimate," "anticipate," "believe," "expect," "preliminary," "intend," "plan," "project," "outlook," "will" and similar words and phrases identify forward-looking statements. Forward-looking statements address matters that involve risks and uncertainties that could cause actual results to differ materially from those anticipated in these forward-looking statements as of the date of this report. We believe that these factors include those related to:

- our ability to compete in the market for wireless broadband data access products, wireless modem products, and asset management, monitoring, telematics, vehicle tracking and fleet management products;
- our ability to develop and introduce new products and services successfully;
- our ability to meet the price and performance standards of the evolving 5G New Radio ("5G NR") products and technologies;
- · our ability to expand our customer reach/reduce customer concentration;
- our ability to grow the Internet of Things ("IoT") and mobile portfolio outside of North America;
- our ability to grow our Ctrack/asset tracking solutions within North America;
- our dependence on a small number of customers for a substantial portion of our revenues;
- our ability to make scheduled payments on, or to refinance our indebtedness, including our convertible notes obligations;
- our ability to introduce and sell new products that comply with current and evolving industry standards and government regulations;
- our ability to develop and maintain strategic relationships to expand into new markets;
- our ability to properly manage the growth of our business to avoid significant strains on our management and operations and disruptions to our business:
- our reliance on third parties to manufacture our products;
- our contract manufacturer's ability to secure necessary supply to build our devices;
- increases in costs, disruption of supply or the shortage of semiconductors or other key components of our products;
- our ability to mitigate the impact of tariffs or other government-imposed sanctions;
- our ability to accurately forecast customer demand and order the manufacture and timely delivery of sufficient product quantities;
- our reliance on sole source suppliers for some products and devices used in our solutions;
- · the continuing impact of uncertain global economic conditions on the demand for our products;
- · the impact of geopolitical instability on our business;
- the emergence of global public health emergencies, such as the recent outbreak of the 2019 novel coronavirus (2019-nCoV), now known as "COVID-19", which could extend lead times in our supply chain and lengthen sales cycles with our customers;
- direct and indirect effects of COVID-19 on our employees, customers and supply chain and the economy and financial markets;
- our ability to be cost competitive while meeting time-to-market requirements for our customers;
- our ability to meet the product performance needs of our customers in wireless broadband data access in industrial IoT ("IIoT") markets;

- demand for fleet, vehicle and asset management software-as-a-service ("SaaS") telematics solutions;
- · our dependence on wireless telecommunication operators delivering acceptable wireless services;
- the outcome of any pending or future litigation, including intellectual property litigation;
- infringement claims with respect to intellectual property contained in our solutions;
- our continued ability to license necessary third-party technology for the development and sale of our solutions;
- the introduction of new products that could contain errors or defects;
- conducting business abroad, including foreign currency risks;
- the pace of 5G wireless network rollouts globally and their adoption by customers;
- our ability to be successful in divesting assets or businesses we wish to sell, including the divestiture of Ctrack South Africa operations;
- our ability to make focused investments in research and development; and
- · our ability to hire, retain and manage additional qualified personnel to maintain and expand our business.

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in this and other reports we file with or furnish to the Securities and Exchange Commission ("SEC"), including the information in "Item 1A. Risk Factors" included in Part I of our Annual Report on Form 10-K for the year ended December 31, 2020 ("Form 10-K"). If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate.

Trademarks

"Inseego Subscribe", "Inseego ManageTM", the Inseego logo, "DigiCore", "Novatel Wireless", the Novatel Wireless logo, "MiFi", "MiFi Intelligent Mobile Hotspot", "Ctrack", the Ctrack logo, "Inseego North America", and "Skyus" are trademarks or registered trademarks of Inseego and its subsidiaries. Other trademarks, trade names or service marks used in this report are the property of their respective owners.

As used in this report on Form 10-Q, unless the context otherwise requires, the terms "we," "us," "our," the "Company" and "Inseego" refer to Inseego Corp., a Delaware corporation, and its wholly and majority-owned subsidiaries.

The following information should be read in conjunction with the condensed consolidated financial statements and the accompanying notes included in Part I, Item 1 of this report, as well as the annual consolidated financial statements and accompanying notes and Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2020, contained in our Form 10-K.

Business Overview

Inseego Corp. is a leader in the design and development of fixed and mobile wireless solutions (advanced 4G and 5G NR), industrial IoT ("IIoT") and cloud solutions for Fortune 500 enterprises, service providers, small and medium-sized businesses, governments, and consumers around the globe. Our product portfolio consists of fixed and mobile device-to-cloud solutions that provide compelling, intelligent, reliable and secure end-to-end IoT services with deep business intelligence. Inseego's products and solutions, designed and developed in the U.S., power mission critical applications with a "zero unscheduled downtime" mandate, such as our 5G fixed wireless access ("FWA") gateway solutions, 4G and 5G mobile broadband, IIoT applications such as SD WAN failover management, asset tracking and fleet management services. Our solutions are powered by our key wireless innovations in mobile and FWA technologies, including a suite of products employing the 5G NR standards, and purpose-built SaaS cloud platforms.

We have been at the forefront of the ways in which the world stays connected and accesses information, and protects, and derives intelligence from that information. With multiple first-to-market innovations across a number of wireless technologies, including 5G, and a strong and growing portfolio of hardware and software innovations for IIoT solutions, Inseego has been advancing technology and driving industry transformations for over 30 years. It is this proven expertise, commitment to quality, obsession with innovation and a relentless focus on execution that makes us a preferred global partner of service providers, distributors, value-added resellers, system integrators, and enterprises worldwide.

On February 24, 2021, the Company entered into a Share Purchase Agreement (the "Purchase Agreement") with an affiliate of Convergence Partners ("Convergence"), an investment management firm in South Africa, to sell the Company's Ctrack business operations in Africa, Pakistan and the Middle East (together, "Ctrack South Africa"), in an all-cash transaction for 528.9 million South African Rand ("ZAR") (approximately \$35.4 million United States Dollar ("USD") based on an exchange rate on March 31, 2021 of 14.92 ZAR to 1 USD). The consummation of the sale is subject to usual and customary closing conditions, including receipt of South African anti-trust approval. Additionally, the consummation of the sale is subject to Convergence closing an investment fund. The sale is expected to be completed in the second quarter of fiscal 2021.

Our Sources of Revenue

We provide intelligent wireless 4G and 5G hardware products for the worldwide mobile communications and IIoT markets. Our hardware products address multiple vertical markets including private LTE/5G networks, the First Responders Network Authority/Firstnet, SD-WAN, telematics, remote monitoring and surveillance, and fixed wireless access and mobile broadband devices. Our broad range of products principally includes intelligent 4G and 5G fixed wireless routers and gateways, and mobile hotspots, and wireless gateways and routers for IIoT applications, Gb speed 4G LTE hotspots and USB modems, integrated telematics and mobile tracking hardware devices, which are supported by applications software and cloud services designed to enable customers to easily analyze data insights and configure/manage their hardware remotely. Our products currently operate on most major global cellular wireless networks. Our mobile hotspots sold under the MiFi brand have been sold to millions of end users, and provide subscribers with secure and convenient high-speed access to corporate, public and personal information through the Internet and enterprise networks. Our wireless standalone and USB modems and gateways allow us to address the rapidly growing and underpenetrated IoT market segments. Our telematics and mobile asset tracking hardware devices collect and control critical vehicle data and driver behaviors, and can reliably deliver that information to the cloud, all managed by our services enablement platforms.

Our MiFi customer base is comprised of wireless operators to whom we provide intelligent fixed and mobile wireless devices. These wireless operators include Verizon Wireless, AT&T, T-Mobile and Sprint in the United States, Rogers in Canada, Telstra in Australia, as well as other international wireless operators, distributors and various companies in other vertical markets and geographies.

We sell our wireless routers for IIoT, integrated telematics and mobile tracking hardware devices through our direct sales force, value-added resellers and through distributors. The customer base for our IIoT products is comprised of transportation companies, industrial enterprises, manufacturers, application service providers, system integrators and distributors in various industries, including fleet and vehicle transportation, aviation ground service management, energy and industrial automation, security and safety, medical monitoring and government. Integrated telematics and asset tracking devices are also sold under our Ctrack brand and provided as part of our integrated SaaS solutions.

We sell SaaS, software and services solutions across multiple mobile and IIoT vertical markets, including fleet management, vehicle telematics, stolen vehicle recovery, asset tracking, monitoring, business connectivity and subscription

management. Our SaaS platforms are device-agnostic and provide a standardized, scalable way to order, connect and manage remote assets and to improve business operations. The platforms are flexible and support both on-premise server or cloud-based deployments and are the basis for the delivery of a wide range of IoT services in multiple industries.

We classify our revenues from the sale of our products and services into two distinct groupings, specifically IoT & Mobile Solutions and Enterprise SaaS Solutions. Both IoT & Mobile Solutions and Enterprise SaaS Solutions revenues include any hardware and software required for the respective solution. Effective in the third quarter ended on September 30, 2020, our IoT & Mobile Solutions now also includes our Device Management System, rebranded as Inseego SubscribeTM, a hosted SaaS platform that helps organizations manage the selection, deployment and spend of their customer's wireless assets, helping them save money on personnel and telecom expenses. We reclassified our Inseego Subscribe revenue stream, from Enterprise SaaS solutions, to better reflect our end user delineation.

Our SaaS delivery platforms include our Ctrack platforms, which provide fleet, vehicle, aviation, asset and other telematics applications. Once the sale of our Ctrack South Africa operations is complete, certain portions of our SaaS revenue will no longer be generated, but Inseego will continue to provide telematics solutions in the rest of the world, including in North America, Europe and Australia.

Factors Which May Influence Future Results of Operations

Net Revenues. We believe that our future net revenues may be influenced by a number of factors including:

- economic environment and related market conditions;
- increased competition from other fleet and vehicle telematics solutions, as well as suppliers of emerging devices that contain wireless data access or device management features;
- acceptance of our products by new vertical markets;
- growth in the aviation ground vertical;
- rate of change to new products;
- · deployment of 5G infrastructure equipment;
- adoption of 5G end point products;
- competition in the area of 5G technology;
- trade protection measures (such as tariffs and duties) and import or export licensing requirements;
- · our contract manufacturer's ability to secure necessary supply to of semiconductors and other key components to build our devices;
- product pricing
- the impact of the COVID-19 pandemic on our business; and
- the announced sale of our Ctrack South Africa operations;
- · changes in technologies.

Our revenues are also significantly dependent upon the availability of materials and components used in our hardware products.

We anticipate introducing additional products during the next twelve months, including SaaS telematics solutions and additional service offerings, IoT hardware and services, and other mobile and fixed wireless devices targeting the emerging 5G market. We continue to develop and maintain strategic relationships with service providers and other wireless industry leaders such as Verizon Wireless, T-Mobile, Sprint, and Qualcomm. Through strategic relationships, we have been able to maintain market penetration by leveraging the resources of our channel partners, including their access to distribution resources, increased sales opportunities and market opportunities.

In December 2019, COVID-19 was reported to have surfaced in Wuhan, China, resulting in shutdowns of manufacturing and commerce globally in the months that followed. Since then, the COVID-19 pandemic has spread to multiple countries worldwide, including the United States, and has resulted in authorities implementing numerous measures to try to contain the disease or slow its spread, such as travel bans and restrictions, quarantines, shelter-in-place orders and shutdowns.

The demand environment for our 5G products during the three months ended March 31, 2021 was consistent with our expectations, with continued demand for our products due to a dramatic increase around the world in remote or tele-work and learning due to the COVID-19 pandemic. Recently, our IoT & Mobile Solutions have experienced lower sales of LTE gigabit hotspots as COVID-19 pandemic demand have eased. The macroeconomic environment remains uncertain and the demand for our products in the prior year may not be sustainable for the long term. We will continue to monitor the implications of the COVID-19 pandemic on our business, as well as our customers' and suppliers' businesses.

Cost of Net Revenues. Cost of net revenues includes all costs associated with our contract manufacturers, distribution, fulfillment and repair services, delivery of SaaS services, warranty costs, amortization of intangible assets, royalties, operations

overhead, costs associated with cancellation of purchase orders and costs related to outside services. Also included in cost of net revenues are costs related to inventory adjustments, including acquisition-related amortization of the fair value of inventory, as well as any write downs for excess and obsolete inventory and abandoned product lines. Inventory adjustments are impacted primarily by demand for our products, which is influenced by the factors discussed above.

Operating Costs and Expenses. Our operating costs consist of three primary categories: research and development; sales and marketing; and general and administrative costs.

Research and development is at the core of our ability to produce innovative, leading-edge products. These expenses consist primarily of engineers and technicians who design and test our highly complex products and the procurement of testing and certification services.

Sales and marketing expenses consist primarily of our sales force and product-marketing professionals. In order to maintain strong sales relationships, we provide co-marketing, trade show support and product training. We are also engaged in a wide variety of marketing activities, such as awareness and lead generation programs as well as product marketing. Other marketing initiatives include public relations, seminars and co-branding with partners.

General and administrative expenses include primarily corporate functions such as accounting, human resources, legal, administrative support and professional fees. This category also includes the expenses needed to operate as a publicly-traded company, including compliance with the Sarbanes-Oxley Act of 2002, as amended, SEC filings, stock exchange fees and investor relations expense. Although general and administrative expenses are not directly related to revenue levels, certain expenses, such as legal expenses and provisions for bad debts, may cause significant volatility in future general and administrative expenses, which may, in turn, impact net revenue levels.

We have undertaken certain restructuring activities and cost reduction initiatives in an effort to better align our organizational structure and costs with our strategy. Restructuring charges consist primarily of severance costs incurred in connection with the reduction of our workforce and facility exit-related costs, as well as discontinued operations, if any.

As part of our business strategy, we may review acquisition or divestiture opportunities that we believe would be advantageous or complementary to the development of our business. Given our current cash position and recent losses, any additional acquisitions we make would likely involve issuing stock in order to provide the purchase consideration for the acquisitions. If we make any additional acquisitions, we may incur substantial expenditures in conjunction with the acquisition process and the subsequent assimilation of any acquired business, products, technologies or personnel.

Critical Accounting Policies and Estimates

In the notes to our consolidated financial statements and in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Form 10-K, we have disclosed those accounting policies that we consider to be significant in determining our results of operations and financial condition. There have been no material changes to those policies that we consider to be significant since the filing of our Form 10-K. The accounting principles used in preparing our unaudited condensed consolidated financial statements conform in all material respects to accounting principles generally accepted in the U.S.

Results of Operations

Three Months Ended March 31, 2021 Compared to Three Months Ended March 31, 2020

Net revenues. Net revenues for the three months ended March 31, 2021 were \$57.6 million, compared to \$56.8 million for the same period in 2020.

The following table summarizes net revenues by our two product categories (in thousands):

| | March 31, | | | | Ch | ange | | |
|---------------------------|-----------|--------|----|--------|----|------|-------|--|
| Product Category | | 2021 | | 2020 | | \$ | % | |
| IoT & Mobile Solutions | \$ | 42,959 | \$ | 42,415 | \$ | 544 | 1.3 % | |
| Enterprise SaaS Solutions | | 14,638 | | 14,425 | | 213 | 1.5 % | |
| Total | \$ | 57,597 | \$ | 56,840 | \$ | 757 | 1.3 % | |
| | | | _ | | _ | | | |

IoT & *Mobile Solutions*. The slight increase in IoT & Mobile Solutions net revenues is primarily a result of increased sales of our second-generation 5G hotspot related to our MiFi business and increased revenues in our Inseego Subscribe business due to subscriber growth, offset by decrease in our Enterprise and Carrier offerings within our IoT & Mobile Solutions, and lower sales of LTE gigabit hotspots as COVID-19 pandemic demand eased.

Enterprise SaaS Solutions. Enterprise SaaS Solutions net revenues increased year-over-year due to the effects of weakening U.S. Dollar to South Africa Rand foreign exchange rates on international sales.

Cost of net revenues. Cost of net revenues for the three months ended March 31, 2021 was \$39.1 million, or 67.9% of net revenues, compared to \$39.6 million, or 69.7% of net revenues, for the same period in 2020.

The following table summarizes cost of net revenues by our two product categories (in thousands):

| I free Months Ended March 31, | | | | Cha | inge | |
|----------------------------------|-----------|----------------------------|--------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| | 2021 2020 | | 2020 | | \$ | % |
| \$ | 33,442 | \$ | 34,039 | \$ | (597) | (1.8)% |
| | 5,682 | | 5,574 | | 108 | 1.9 % |
| \$ | 39,124 | \$ | 39,613 | \$ | (489) | (1.2)% |
| | \$ | 2021 \$ 33,442 5,682 | March 31, 2021 \$ 33,442 \$ 5,682 | March 31, 2021 2020 \$ 33,442 \$ 34,039 5,682 5,574 | March 31, 2021 2020 \$ 33,442 \$ 34,039 5,682 5,574 | March 31, Character 2021 2020 \$ \$ 33,442 \$ 34,039 \$ (597) 5,682 5,574 108 |

IoT & Mobile Solutions. The decrease in IoT & Mobile Solutions cost of net revenues is primarily a result of lower sales of LTE gigabit hotspots, partially offset by additional cost of revenue due to subscriber growth in our Inseego Subscribe business.

Enterprise SaaS Solutions. Enterprise SaaS Solutions cost of net revenues increased by 1.9% compared to the same period in 2020 mainly due to weakening U.S. Dollar to South Africa Rand foreign exchange rates on international costs.

Gross profit. Gross profit for the three months ended March 31, 2021 was \$18.5 million, or a gross margin of 32.1%, compared to \$17.2 million, or a gross margin of 30.3%, for the same period in 2020. The increase in gross margin was primarily attributable to the favorable mix of Inseego Subscribe revenue.

Research and development expenses. Research and development expenses for the three months ended March 31, 2021 were \$14.6 million, or 25.3% of net revenues, compared to \$8.2 million, or 14.5% of net revenues, for the same period in 2020. The increase was primarily a result of staffing, test units, and other development spending related to our 5G product programs. Additionally, the increase was primarily a result of timing of payout of bonus grants to eligible employees during the current quarter, compared to bonus grants awarded to employees during the second quarter of fiscal 2020. See Note 6. *Share-based Compensation* in the accompanying unaudited condensed consolidated financial statements for further information.

Sales and marketing expenses. Sales and marketing expenses for the three months ended March 31, 2021 were \$11.0 million, or 19.1% of net revenues, compared to \$8.8 million, or 15.4% of net revenues, for the same period in 2020. The increase was primarily a result of timing of payout of bonus grants to eligible employees during the current quarter, compared to bonus grants awarded to employees during the second quarter of fiscal 2020. See Note 6. *Share-based Compensation* in the accompanying unaudited condensed consolidated financial statements for further information.

General and administrative expenses. General and administrative expenses for the three months ended March 31, 2021 were \$8.6 million, or 15.0% of net revenues, compared to \$7.2 million, or 12.6% of net revenues, for the same period in 2020. The increase was primarily a result of timing of payout of bonus grants to eligible employees during the current quarter, compared to bonus grants awarded to employees during the second quarter of fiscal 2020, partially offset by lower legal expenses compared to the same period in 2020. See Note 6. *Share-based Compensation* in the accompanying unaudited condensed consolidated financial statements for further information.

Amortization of purchased intangible assets. Amortization of purchased intangible assets for each of the three months ended March 31, 2021 and 2020 was \$0.5 million and \$0.8 million, respectively. The decrease was primarily as a result of certain purchased intangible assets being fully amortized as of the fourth quarter of 2020.

Loss on debt conversion and extinguishment, net. The loss on debt conversion of \$0.4 million for the three months ended March 31, 2021 primarily represents the loss on debt conversion of 2025 Notes. The loss on debt conversion and extinguishment, net during the three months ended March 31, 2020 was related to the fair value of inducement shares issued in the privately-negotiated exchange transactions with certain holders of the 2022 Notes.

Interest expense, net. Interest expense, net, for the three months ended March 31, 2021 and 2020 was \$1.8 million and \$3.4 million, respectively. The decrease in interest expense was due to the lower interest rate on the 2025 Notes, as compared to the 2022 Notes and our previous term loan.

Other income, net. Other income, net, for the three months ended March 31, 2021 was \$1.7 million, which primarily includes the fair value adjustment related to our interest make-whole payment. For the same period in 2020, other income, net, was \$1.0 million, which primarily included foreign currency transaction gains and losses.

Income tax provision. The income tax provision of \$0.2 million and \$0.1 million for the three months ended March 31, 2021 and 2020, respectively, primarily related to certain of our entities in foreign jurisdictions.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests for the three months ended March 31, 2021 was \$0.2 million, compared to a net income attributable to noncontrolling interests of \$0.1 million for the same period in 2020.

Series E preferred stock dividends. During the three months ended March 31, 2021 and 2020, we recorded dividends of \$0.9 million and \$0.4 million, respectively, on our Fixed-Rate Cumulative Perpetual Preferred Stock, Series E, par value \$0.001 per share (the "Series E Preferred Stock"). The increase was primarily attributable to the additional shares of Series E Preferred Stock issued in March 2020. See Note 8. Private Placements and Public Offering.

Liquidity and Capital Resources

As of March 31, 2021, the Company had available cash and cash equivalents totaling \$5.6 million, including \$5.5 million cash and cash equivalents classified as held-for-sale, and working capital of \$46.1 million, excluding assets and liabilities classified as held-for-sale.

On March 6, 2020, we issued and sold 25,000 shares of Fixed-Rate Cumulative Perpetual Preferred Stock, Series E, par value \$0.001 per share (the "Series E Preferred Stock"), for an aggregate purchase price of \$25.0 million.

In the first quarter of 2020, \$59.9 million of our 5.5% convertible senior notes due 2022 (the "2022 Notes" formerly referred to as the "Inseego Notes") were exchanged for common stock in private exchange transactions. Additionally, in the second quarter of 2020, we restructured our outstanding debt by completing a \$100.0 million registered public offering (the "Offering") of 3.25% convertible senior notes due 2025 (the "2025 Notes") and also entered into privately-negotiated Exchange Agreements, pursuant to which an aggregate of \$45.0 million in principal amount of the 2022 Notes were exchanged for an aggregate of \$32.0 million in cash and \$80.4 million in principal amount of the 2025 Notes (the "Private Exchange Transactions"). We also used a portion of the proceeds from the Offering to repay in full our previous term loan. In the third quarter of 2020, we redeemed the remaining \$2,000 principal amount of the 2022 Notes.

As of March 31, 2021, our outstanding debt primarily consisted of \$161.9 million in principal amount of 2025 Notes.

During the three months ended March 31, 2021, certain holders of the 2025 Notes converted an aggregate of approximately \$5.0 million in principal amount of the 2025 Notes into 428,669 shares of our common stock, including 32,221 shares of common stock issued in satisfaction of the interest makewhole payment. In connection therewith, we recorded a loss of \$0.4 million on debt conversion, net in the condensed consolidated statement of operations included in the accompanying unaudited condensed consolidated financial statements.

On January 25, 2021, we entered into an Equity Distribution Agreement with Canaccord Genuity LLC (the "Agent"), pursuant to which we may offer and sell, from time to time, through or to the Agent, up to \$40.0 million of shares of our common stock (the "ATM Offering"). In January 2021, we sold 1,516,073 shares of common stock, at an average price of \$20.11 per share, for net proceeds of \$29.4 million, after deducting underwriter fees and discounts of \$0.9 million, and other offering fees, pursuant to the ATM Offering.

We have a history of operating and net losses and overall usage of cash from operating and investing activities. Our management believes that our cash and cash equivalents, together with anticipated cash flows from operations, will be sufficient to meet our cash flow needs for the next twelve months from the filing date of this report. Our ability to attain more profitable operations and continue to generate positive cash flow is dependent upon achieving a level and mix of revenues adequate to support our evolving cost structure. If events or circumstances occur such that we do not meet its operating plan as expected, or if we become obligated to pay unforeseen expenditures as a result of ongoing litigation, we may be required to raise capital, reduce planned research and development activities, incur additional restructuring charges or reduce other operating expenses which could have an adverse impact on our ability to achieve our intended business objectives.

Our liquidity could be impaired if there is any interruption in our business operations, a material failure to satisfy our contractual commitments or a failure to generate revenue from new or existing products. There can be no assurance that any required or desired restructuring or financing will be available on terms favorable to us, or at all. Additionally, we are uncertain of the full extent to which the COVID-19 pandemic will impact our business, operations and financial results.

Contractual Obligations and Commitments

There have been no material changes in our contractual obligations in the first quarter of 2021.

Convertible Notes

2025 Notes

On May 12, 2020, we completed a registered public Offering of \$100.0 million aggregate principal amount of 2025 Notes.

On May 12, 2020, we also entered into separate privately-negotiated Exchange Agreements certain holders of the 2022 Notes. Pursuant to the Exchange Agreements, each of these noteholders agreed to exchange the 2022 Notes that they held (representing an aggregate of \$45.0 million principal amount of 2022 Notes with an estimated fair value of approximately \$112.4 million as of the date of exchange) for an aggregate of \$32.0 million in cash and \$80.4 million principal amount of 2025 Notes in concurrent Private Exchange Transactions. The 2025 Notes issued in the Private Exchange Transactions are part of the same series as the 2025 Notes issued in the Offering.

We issued the 2025 Notes under an indenture, dated May 12, 2020 (the "Base Indenture"), between the Company and Wilmington Trust, National Association, as trustee (the "Trustee"), as supplemented by the first supplemental indenture, dated May 12, 2020 (the "Supplemental Indenture" and, together with the Base Indenture, the "Indenture"), between us and the Trustee.

The 2025 Notes will mature on May 1, 2025, unless earlier repurchased, redeemed or converted. The 2025 Notes are senior unsecured obligations of the Company and bear interest at an annual rate of 3.25%, payable semi-annually in arrears on May 1 and November 1 of each year, beginning on November 1, 2020.

Holders of the 2025 Notes may convert the 2025 Notes into shares of our common stock (together with cash in lieu of any fractional share), at their option, at any time until the close of business on the scheduled trading day immediately before the maturity date. Upon conversion of the 2025 Notes, we will deliver for each \$1,000 principal amount of 2025 Notes converted a number of shares of common stock (together with cash in lieu of any fractional share), equal to the conversion rate.

The initial conversion rate for the 2025 Notes is 79.2896 shares of common stock per \$1,000 principal amount of 2025 Notes, which represents an initial conversion price of approximately \$12.61 per share, and is subject to adjustment upon the occurrence of certain events, including, but not limited to, certain stock dividends, splits and combinations, the issuance of certain rights, options or warrants to holders of the common stock, certain distributions of assets, debt securities, capital stock or other property to holders of the common stock, cash dividends on the common stock and certain Company tender or exchange offers.

Holders of the 2025 Notes who convert their 2025 Notes may also be entitled to receive, under certain circumstances, an interest make-whole payment payable in, at the Company's election, either cash or shares of the Common Stock (together with cash in lieu of any fractional share).

If a fundamental change (as defined in the Indenture) occurs at any time prior to the maturity date, then the noteholders may require us to repurchase their 2025 Notes at a cash repurchase price equal to the principal amount of the 2025 Notes to be repurchased, plus accrued and unpaid interest, if any, to, but excluding, the fundamental change repurchase date. If a make-whole fundamental change (as defined in the Indenture) occurs, then we will in certain circumstances increase the conversion rate for a specified

make-whole fundamental change (as defined in the Indenture) occurs, then we will in certain circumstances increase the conversion rate for a specified period of time.

The 2025 Notes will be redeemable, in whole or in part, at our option at any time, and from time to time, on or after May 6, 2023 and on or before the scheduled trading day before the maturity date, at a cash redemption price equal to the principal amount of the 2025 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the redemption date, as long as the last reported sale price per share of the common stock exceeds 130% of the conversion price on (i) each of at least 20 trading days, whether or not consecutive, during the 30 consecutive trading days ending on, and including, the trading day immediately before the date we send the related redemption notice; and (ii) the trading day immediately before the date we send such notice.

The Indenture contains customary events of default. If an event of default (other than certain events of bankruptcy, insolvency or reorganization involving the Company) occurs and is continuing, the Trustee, by notice to the Company, or the holders of the 2025 Notes representing at least 25% in aggregate principal amount of the outstanding 2025 Notes, by notice to the Company and the Trustee, may declare 100% of the principal of, and all accrued and unpaid interest on, all of the then outstanding 2025 Notes to be due and payable immediately. Upon the occurrence of certain events of bankruptcy, insolvency or reorganization involving the Company, 100% of the principal of, and all accrued and unpaid interest on, all of the then outstanding 2025 Notes will automatically become immediately due and payable. Notwithstanding the foregoing, the Indenture provides that, to the extent the Company elects, the sole remedy for an event of default relating to certain failures by the Company to comply with certain reporting covenants in the Indenture will, for the first 360 days after such event of default, consist exclusively of the right to receive additional interest on the 2025 Notes.

Historical Cash Flows

The following table summarizes our unaudited condensed consolidated statements of cash flows for the periods indicated (in thousands):

| | March 31, | | | |
|-----------------------------------------------------------------|-----------|---------|----|---------|
| | | 2021 | | 2020 |
| Net cash provided by operating activities | \$ | 973 | \$ | 328 |
| Net cash used in investing activities | | (9,396) | | (4,857) |
| Net cash provided by financing activities | | 29,547 | | 26,314 |
| Effect of exchange rates on cash | | (1,589) | | (3,318) |
| Net increase in cash, cash equivalents and restricted cash | | 19,535 | | 18,467 |
| Cash, cash equivalents and restricted cash, beginning of period | | 40,015 | | 12,074 |
| Cash, and cash equivalents, end of period ¹ | \$ | 59,550 | \$ | 30,541 |

Three Months Ended

Operating activities. Net cash provided by operating activities was \$1.0 million for the three months ended March 31, 2021, compared to net cash provided by operating activities of \$0.3 million for the same period in 2020. Net cash provided by operating activities for the three months ended March 31, 2021 was primarily attributable to net cash provided by working capital, depreciation and amortization, including the amortization of debt discount and debt issuance costs, loss on debt conversion, and share-based compensation expense, offset by the net loss incurred during the period, and a non-cash gain as a result of the fair value adjustment on derivative instruments. Net cash provided by operating activities for the three months ended March 31, 2020 was primarily attributable to net cash provided by working capital, non-cash charges for the fair value of inducement shares issued in the privately-negotiated exchange transactions with certain holders of the 2022 Notes, depreciation and amortization, including the amortization of debt discount and debt issuance costs, and share-based compensation expense, partially offset by the net loss in the period.

Investing activities. Net cash used in investing activities during the three months ended March 31, 2021 was \$9.4 million, compared to net cash used in investing activities of \$4.9 million for the same period in 2020. Cash used in investing activities during the three months ended March 31, 2021 was primarily related to the purchases of property, plant and equipment and capitalization of certain costs related to the research and development of software to be sold in our products, in large part due to the increase in development in support of 5G products and services. Cash used in investing activities during the same period in 2020 was primarily related to the purchases of property, plant and equipment and capitalization of certain costs related to the research and development of software to be sold in our products, in large part due to the increase in development in support of 5G products and services.

Financing activities. Net cash provided by financing activities during the three months ended March 31, 2021 was \$29.5 million, compared to net cash provided by financing activities of \$26.3 million for the same period in 2020. Net cash provided by financing activities during the three months ended March 31, 2021 was primarily related to net proceeds received from the ATM Offering, proceeds from stock option exercises and purchases through our employee stock purchase plan, partially offset by the principal payments under finance lease obligations and taxes paid on vested restricted stock units. Net cash provided by financing activities for the same period in 2020 was primarily related to proceeds received from the issuance and sale of Series E Preferred Stock, the exercise of warrants to purchase common stock, and net borrowings of bank and overdraft facilities, partially offset by principal payments under finance lease obligations and taxes paid on vested restricted stock units.

Off-Balance Sheet Arrangements

We do not engage in any off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company is exposed to market risk in the ordinary course of our business. Our revenue, earnings, cash flows, receivables, and payables are subject to fluctuations due to changes in foreign currency exchange rates. The ongoing COVID-19 pandemic has increased the volatility of global financial markets, which may increase our foreign currency exchange risk.

Foreign Currency Exchange Risk

The Company's results of operations and cash flows are subject to fluctuations due to changes in foreign currency exchange rates. A majority of the Company's revenue is denominated in U.S. dollars, and therefore, our revenue is not directly subject to foreign currency risk. However, as we have operations in foreign countries, including South Africa and Europe, a stronger U.S. dollar could make our products and services more expensive in foreign countries and therefore reduce demand. A

¹Cash and cash equivalents balance includes cash and cash equivalents classified as held for sale as of March 31, 2021.

weaker U.S. dollar could have the opposite effect. Such economic exposure to currency fluctuations is difficult to measure or predict because our sales are also influenced by many other factors.

For the quarter ended March 31, 2021, sales denominated in foreign currencies were approximately 25.2% of total revenue. The Company's expenses are generally denominated in the currencies in which our operations are located, which is primarily in the U.S. and to a lesser extent in South Africa and Europe. The Company's results of operations and cash flows are, therefore, subject to fluctuations due to changes in foreign currency exchange rates and may be adversely affected in the future due to changes in foreign exchange rates. These foreign functional currencies consist of the South African Rand, pound sterling, Euro, and Australian Dollar (collectively, the "Foreign Functional Currencies"). For the quarter ended March 31, 2021, a hypothetical 10% change in foreign functional currency exchange rates would have increased or decreased our revenue by approximately \$1.5 million. Actual gains and losses in the future may differ materially from the hypothetical gains and losses discussed above based on changes in the timing and amount of foreign currency exchange rate movements. Additionally, with the upcoming Ctrack South Africa operations divestiture, our foreign exchange risk is expected to decrease. Net foreign currency translation losses of \$1.7 million were recorded for the quarter ended March 31, 2021.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Exchange Act, that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15(b) promulgated under the Exchange Act, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of March 31, 2021, the end of the period covered by this report. Based on the foregoing, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of March 31, 2021.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting, as defined in Rule 13a-15(f) and 15d-15(f) promulgated under the Exchange Act, during the three months ended March 31, 2021, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

The disclosure in Note 10, *Commitments and Contingencies*, in the accompanying unaudited condensed consolidated financial statements includes a discussion of our legal proceedings and is incorporated herein by reference.

The Company is also engaged in various other legal actions arising in the ordinary course of our business and, while there can be no assurance, the Company currently believes that the ultimate outcome of these other legal actions will not have a material adverse effect on its business, results of operations, financial condition or cash flows.

Item 1A. Risk Factors.

Except as set forth below, there have been no material changes in our risk factors from those disclosed in "Item 1A. Risk Factors" of the Form 10-K.

We may be unable to adequately control the costs or maintain adequate supply of components and raw materials associated with our operations.

From time to time, we may experience increases in the cost or a sustained interruption in the supply or shortage of components or raw materials associated with our operations. We expect to incur significant costs related to procuring raw materials required to manufacture and assemble our products. The prices for and availability of these raw materials fluctuate depending on factors beyond our control. For example, our business depends on the continued supply of semiconductor chips, which are integral components for our 5G and 4G products. A global semiconductor supply shortage is having wide-ranging effects across the technology industry and may negatively impact the supply of semiconductors needed for our testing and production timeline.

Any reduced availability of these raw materials or substantial increases in the prices for such materials may increase the cost of our components and consequently, the cost of our products. There can be no assurance that we will be able to recoup increasing costs of our components by increasing prices, which in turn could have a material adverse impact on our financial condition, results of operations and cash flows.

We continue to work closely with suppliers and customers to minimize the potential adverse impact of the semiconductor supply shortage and monitor the availability of semiconductor chips and other component parts and raw materials, due to this issue. However, if we are not able to mitigate the semiconductor shortage impact, any direct or indirect supply chain disruptions may have a material adverse impact on our financial condition, results of operations and cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

Pursuant to Rule 13a-14(a) adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Dan Mondor, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Inseego Corp.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
