[Samsung Galaxy Express and AT&T Mobile Hotspot MiFi Liberate Arrive at AT&T Nov. 16](#)

DALLAS, Nov. 8, 2012 /PRNewswire/ -- Beginning Nov. 16, [AT&T](#)* customers will be able to pick up the new AT&T Mobile Hotspot MiFi® Liberate for \$49.99 with a two-year agreement and the Samsung Galaxy Express™ for \$99.99 with a two-year agreement. For a limited time, customers who purchase a Samsung Galaxy smartphone, including the Galaxy Express, will receive up to \$100 off a second connected Samsung device (details below).¹

AT&T Mobile Hotspot MiFi Liberate

Developed by [Novatel Wireless](#) (NASDAQ: NVTL), and powered by the nation's largest [4G network](#), the MiFi Liberate is the first mobile hotspot device with a touchscreen display. Its vibrant 2.8" color touchscreen display takes ease-of-use to the next level. Customers can easily connect up to 10 [Wi-Fi devices](#). They can also view data usage, manage connected devices, change network and device settings, and more—all directly from the touchscreen.

The MiFi Liberate, which offers access to 4G LTE speeds, boasts an industry-leading, powerful battery that provides up to 11 hours of continuous use. The global-ready MiFi Liberate also offers connectivity in more than 200 countries, making it more convenient to browse the Internet, check and send email, and upload photos while abroad. Customers can also easily access and share files and media stored on the inserted microSD card** from connected Wi-Fi or DLNA capable devices.

Customers purchasing connected devices from AT&T have more options in choosing the plan that's right for them and their mobile devices. With new AT&T Mobile Share plans, new and existing customers can share a single bucket of data across smartphones, tablets, and other compatible devices, including the MiFi Liberate. AT&T Mobile Share allows customers to build a plan to fit their devices and usage. Customers can select one of the new shared data plans or choose one of AT&T's existing individual or family plans.***

A look at the MiFi Liberate's features in action is available in this [video](#).

Samsung Galaxy Express

First-time smartphone users and people looking to upgrade to a new Android smartphone will find their perfect match with the Samsung Galaxy Express, a [4G LTE smartphone](#) that combines high performance features at a great price. The Galaxy Express is exclusive to AT&T, runs Android 4.0 (Ice Cream Sandwich) and sports a clear and bright 4.5-inch Super AMOLED™ Plus screen. The 1.5 GHz dual-core processor and 2000 mAh battery helps users stay productive throughout the day; while the 5-megapixel rear facing camera lets you capture and share images easily through text messages, email and social networks.

With Samsung Galaxy Express, customers can also enjoy some of the popular sharing features introduced in the popular Samsung Galaxy S® III, like S Beam which allows content to be shared between S Beam enabled devices simply by touching them back to back.

For more information about the Samsung Galaxy Express, please visit <http://www.att.com/galaxyexpress>.

AT&T customers have access to the nation's largest 4G network, covering 285 million people. AT&T has two 4G networks that work together for customers, [LTE and HSPA+](#) with enhanced backhaul. That means AT&T customers are able to enjoy a widespread, ultra-fast and consistent 4G experience on their compatible device as they move in and out of LTE areas.**** With other carriers, when you travel outside of their LTE coverage area, you may be on a much slower 3G network.

**AT&T products and services are provided or offered by subsidiaries and affiliates of AT&T Inc. under the AT&T brand and not by AT&T Inc.*

***microSD sold separately. Compatible connected devices required.*

**** Smartphone required. Up to ten devices per plan. Additional monthly charge per device. \$15 per GB for add'l data. Unlimited talk and text for phones only. Activation fee may apply.
