Novatel Wireless and Mobilx Sign Agreement for Distribution of MiFi 2352 Intelligent Mobile Hotspot

Mobilx to Offer Intelligent Mobile Wi-Fi Hotspot Providing Wireless Internet Connectivity for Multiple Devices

SAN DIEGO, Jul 08, 2009 (BUSINESS WIRE) -- Novatel Wireless, Inc. (Nasdaq:NVTL), a provider of wireless broadband access solutions and Mobilx, a distributor and e-tailer for data mobility offerings, have signed an agreement for the distribution of the Novatel Wireless MiFi Intelligent Mobile Hotspot to the Mobilx reseller channel throughout Central and Eastern Europe and the Middle East.

Mobilx will be shipping the MiFi 2352, the industry's first Intelligent Mobile Hotspot that creates a personal cloud of high-speed Internet connectivity that can be easily shared between multiple users and up to five Wi-Fi devices such as laptops, cameras, gaming devices and multimedia players. The device enables users to access high-speed Internet connectivity from anywhere there is a cellular connection, including moving trains or vehicles.

"Our reseller partners in Eastern Europe and the Middle East have benefited from the innovative connectivity solutions from Novatel for home, SMB and enterprise customers," said Akos Gulyas, chief executive officer of Mobilx. "We are proud to offer Novatel products because they consistently deliver unique, high-quality solutions that ensure customer satisfaction and exceed expectations."

The combination of internal (ROM) storage, up to 16GB of expandable memory via MicroSD and on-board GPS capabilities create a flexible and robust platform capable of supporting a variety of location-based applications and enabling the storage of personal content such as music, video and pictures. MiFi does not require any type of installation or previously installed software. Users simply need to turn on the unit to connect to Wi-Fi enabled handsets or devices.

"As 3G wireless broadband networks become ubiquitous throughout Eastern Europe and the Middle East, mobile users will turn to value-added distributors like Mobilx for their wireless solutions," said Rob Hadley, CMO of Novatel Wireless. "As a leading distributor of mobile solutions, we recognize that Mobilx has the industry knowledge and steadfast customers that will continue to enhance our presence in the region."

MiFi is currently available through Mobilx's website: www.mobilx.eu
